Tractors (India), Ltd., factory at 1, Taratolla Road, Calcutta, Store Department at 6/2, Bhowanipore Road, Calcutta, and Head Office at Victoria House, Calcutta, and their workmen represented by Tractors (India), Ltd., Employees' Union, 55, Serpentine Lane, Calcutta, was referred for adjudication to Sri G. The award made by the said Sri G. Palit, District Judge, shall bind the Company and their workmen aforesaid as specified therein and shall remain in force for a period of one year with effect from the date of its publication.

ANNEXURE.

In the matter of an industrial dispute between Messrs. Tractors (India), Ltd., with its factory at 1, Taratolla Road, Calcutta, Store Department at 6/2, Bhowanipore Road, Calcutta, Head Office at Victoria House, Calcutta, and their workmen represented by Tractors (India), Ltd., Employees' Union, 55, Serpentine Lane, Calcutta.

PRESENT: SRI G. PALIT, *District Judge, Chairman, Industrial Tribunal.*

Present for the Union.—Sri P. K. Sanyal, Advocate.

Present for the Company.—Sri S. C. Sen, Advocate, with Mr. A. J. Bookless, Secretary to the Company.

1. By order No. 1325Lab., dated 20th March 1950, the Government of West Bengal had constituted a Tribunal of one Judge, under sections 7 and 10 of the Industrial Disputes Act (Act XIV of 1947), and referred the said dispute to me for adjudication. Later on, by a subsequent order No. 2041Lab., dated 27th April 1950, there was an amendment made in the original order of reference. In the said reference the Store Department at 6/2, Bhowanipore Road, Calcutta, was ordered to be included.

2. Issues were framed on 8th May 1950, after both the parties had filed their written statements. The issues stand as follows:—

(1) Dearness Allowance.

(2) (*a*) House Allowance, (*b*) City Allowance.

(3) Installation of adequate sanitary arrangement.

(4) Installation of light and drinking water arrangements inside the factory.

(5) Rules for dismissal, if satisfactory.

(6) Leave: Privilege, Sick and Casual, if adequate.

(7) Bonus.

(8) Full pay during convalescence after injury by accident.

(9) Same service conditions as disclosed in the statement.

(10) Circumstances under which the Provident Fund accumulation is payable.

(11) Desirability of removal of the new Works Manager of the Taratolla Workshop.

AWARD.

Before I deal and discuss the issues raised above, I think it worthwhile to give an outline of the facts which led to the present dispute. The Company is said to have been started in 1944 with a capital of 2 lakhs of rupees. It has made phenomenal progress within a very short time. Its capital is now said to comprise about 25 lakhs of rupees. According to the Union it is a monopolistic concern in its line. It has three establishments in Calcutta, viz., its Head Office at Victoria House, Store Department at 6/2, Bhowanipore Road and its factory at 1, Taratolla Road, Garden Reach. The strength of the European staff is about 10 while that of the Indian workmen is about 123. The Union contends that the Company has raised the salary of the European staff three times of what it was in 1945-46, but the salary of the Indian staff has not been appreciably increased. The salary of the unskilled workmen comes up to Rs. 1-12 per day. The

Company has not given any dearness allowance to its operatives and subordinate staff in all these sections. In answer to the demands for dearness allowance, the Company in September 1949 merely split up the pay into basic pay and dearness allowance, much to the chagrin of its employees. The employees formed themselves into a Union in October 1949 and on the 17th October 1949 it submitted a charter of demands to the Company as per Annexure A. The Company did not listen to the demands. So the matter was taken up with the Assistant Labour Commissioner. Attempts at conciliation had been made but without success. So the matter has been referred to this Tribunal through the intervention of the Government.

The Company asserts that the rates of wages given to its employees are perfectly fair and liberal. The Company is giving a consolidated rate inclusive of dearness allowance. It was in answer to the demands of the employees that the Company split up the salary into basic salary and dearness allowance. On the 14th January 1950, the Company, in consultation with the Assistant Labour Commissioner, raised the rate of pay by 6 annas per day as special dearness allowance available to the operatives. The Company gave this revised scale of rate retrospective effect from the 1st September 1949. This apparently satisfied the workers. But later on they changed their mind and refused to submit to the new rates. The Company contends that the rates of pay given by it compare favourably with the rates awarded by the Engineering Tribunal. The Company has given specific answers to the demands set forth in the written statement submitted by the Union.

Issue No. 1.—Dearness Allowance.

The Union demands 95 per cent. of the basic pay as dearness allowance. I must say that the claim is rather extravagant. The Union contends that the salary the Company is giving was the basic salary exclusive of dearness allowance. The Company, on the other hand, contends that the salary was a consolidated salary inclusive of dearness allowance. As a result of negotiations through the intervention of the Assistant Labour Commissioner, the Company has given 6 annas more per day to the workers by way of extra dearness allowance. With this extra sum, I find that the salary of the workers is in excess of what is available under the award of the Engineering Tribunal. The Union asserts that the concern is not an engineering concern. The clerks of the concern should be given the salary and dearness allowance as provided under the award of the Mercantile Tribunal. As I find that in the workshop parts of tractors are assembled and fitted in, there is hardly any reason for doubt that the nature of the concern is nothing but that of an engineering concern. Besides, there is hardly any reason why the terms of the Mercantile Tribunal's award should be extended to the clerical staff of this Company, both in the Store Department and in the Head Office. The clerks who were given the benefits of the award of the Mercantile Tribunal were possessed of much superior qualifications than the clerks here. They were required to discharge duties much more onerous and responsible than the clerks in this concern. So I turn down the contention of the Union that the clerical staff of this concern is entitled to have the benefits as under the Mercantile Tribunal's award. I also find that the salary given by the Company with effect from January 1950, when 6 annas per day was added to the earnings of the workers, is in excess of what was given under the Engineering Tribunal's award. For good reasons I refrain from further increasing the salary. The salary in the engineering firms should be more or less uniform. Disparity of wages in sister concerns makes for discontent among the workers. That leads to industrial unrest. So the Tribunal must always be cautious and slow to disturb the existing scale of wages such that it may not be in excess of the

prevailing rate, particularly in a producing concern. I award that the employees are not entitled to any separate dearness allowance other than what is included in their existing wages.

I find in the list supplied by the Company that the monthly-rated staff gets Rs. 9-8 per month while the daily-rated staff gets 6 annas as extra dearness allowance. This is not fair. If a month is supposed to comprise even 26 working days, then the increase would work out to Rs. 9-12 per month and not Rs. 9-8 as is given by the Company. But in the case of monthly-rated staff, it is fair to hold that the month consists of 30 days. So the monthly-rated staff should get Rs. 11-4 as extra dearness allowance given by the Company. The Company should in the case of monthly-rated staff give Rs. 11-4 as extra dearness allowance with effect from 1st September 1949, since when extra dearness allowance has been introduced by the Company less any amount already paid under this head. The Company will make this payment within one month from the date of publication of this award to the monthly-rated staff.

Issue No. 2.—(a) House Allowance.

Regarding house allowance I am of opinion that it is included in the dearness allowance. The Engineering Tribunal also disallowed the claim for house allowance. I turn down the claim on this head.

(b) City Allowance.

For reasons given above I do not grant any city allowance. The claim stands disallowed under this head.

Issue Nos. 3 and 4.—Sanitary, light and drinking water arrangements inside the factory.

The Secretary of the Company Mr. A. J. Bookless as well as the Company's Advocate Sri S. C. Sen gave an assurance before the Court that they would before long improve the sanitary and drinking water arrangements. I am told by the Secretary of the Company that they are sparing no pains to have their drainage scheme sanctioned and also the drinking water arrangement. They have only recently succeeded in securing the sanction. They proposed to put it into effect very soon. Till that is done, I would call upon the Company to make certain tentative arrangements for drinking water and for having better latrine service than what exists at present. The Company should see that the employees are not required to travel to a distance to have drinking water. The Company should have some sort of vessel inside the factory for storing drinking water. The latrine should also be improved and arrangements be made for adequate cleansing of the same. Regarding the installation of light, I am assured by the Secretary of the Company that he has got the necessary sanction for electric light. He hopes to put it into operation very soon. I accept the assurance of the Secretary in this respect. As these matters are more or less the look-out and duty of the Factory Inspector, I should like to draw his attention that the factory, as soon as possible, answers all the essential requirements under the Factories Act.

Issue No. 5.—Rules for dismissal, if satisfactory.

Under this head the Union demands that the Company should refrain from ordering summary dismissal of any of its employees without previous consultation with its Executive. The Company opposes the proposal. I do not think that the Company can be put under any obligation to have previous consultation with the Executive of the Union before it can pass an order

for summary dismissal. But I call upon the Company to inform the Executive of the Union, as soon as possible, after an order for summary dismissal of any of its members has been passed. I also call upon the Company to furnish the delinquent employee with a written charge and also to offer him all reasonable facilities for explanation of his conduct or for defending himself.

Issue No. 6.—Leave: Privilege, Sick and Casual, if adequate.

The Union demands one month's privilege leave, three weeks' leave on medical grounds, and two weeks' casual leave. The Company states that it allows holidays as provided under the Factories Act and eight days' festival holidays and fifteen days' sick leave on half pay in a year of service. The Union contends that the leave rules of the Company are rather confused and in a fluid state. Very much on the line of the Engineering Tribunal's award, I call upon the Company to give statutory leave under the Factories Act, eight days' festival leave and five or six days' other leave which will accumulate for two years. Sick leave I allow as fifteen days on half pay. The clerks will get festival leave for eight days and privilege leave for twenty-one days on full pay cumulative for two years, sick leave for fifteen days on half pay and casual leave for one week on full pay.

Issue No. 7.—Bonus.

I am told that the Company grants one month's salary as bonus during the Puja holidays. The Union claims two months' salary as bonus at the end of every year. I find that the existing scale of bonus is adequate under the circumstances. The Secretary of the Company contended that the bonus is an *ex-gratia* payment. The employees must not claim anything under this head as a matter of right. Though there is a certain amount of bounty involved in the matter of bonus, yet bonus is not all a bounty. That bonus is an *ex-gratia* payment wholly is an exploded theory. If the profits of the Company continue as before, the Company can hardly successfully resist the claim of bonus before a Tribunal. I make this observation only to put the Company in proper attitude in respect of bonus.

Issue No. 8.—Full pay during convalescence after injury by accident.

The Union demands leave on full pay during convalescence after injury by accident. When there is the Workmen's Compensation Act to govern such matters, I do not think any direction is called for in this respect to grant extra privileges. So I do not accept the Union's contention.

Issue No. 9.—Same service conditions as disclosed in the statement.

The Union contends that discriminatory treatment is meted out to workers with an eye to their racial inequality. The Company emphatically denies having given any preferential treatment to anybody on account of race. As no specific instance has been given by the Union even after being challenged by the Company, I do not think any direction is called for on this head. I leave the matter with the assurance of the Company that such unequal treatment is never meted out.

Issue No. 10.—Circumstances under which the Provident Fund accumulation is payable.

The Union contends that the Provident Fund Rule is not explicit whether an employee will get the Company's contribution if he is discharged. The Company has placed before me its Provident Fund Rules in a printed booklet.

Sri S. C. Sen, Advocate, points out that in the absence of any ban in this respect it may be taken that the Provident Fund contribution including the Company's contribution must be available to the worker in the case of discharge, provided he has put in the requisite length of service. In that view of the matter, which is also a reasonable view, I refrain from recording any direction under this head.

Issue No. 11.—Desirability of removal of the new Works Manager of the Taratolla Workshop.

The learned Advocate of the Union does not press this point. He says that the grievance under this head does no longer exist. So I record no observation under this head. The issue is disposed of accordingly.

3. If any measure which the Health Officer or a Sanitary Inspector has, by a notice issued under regulation 20, required to be carried out, be not carried out to his satisfaction within the time

(*2*) The municipality may recover all expenses incurred by the Health Officer or a Sanitary Inspector in carrying out the measure under regulation 3 from the person or persons to whom the notice was originally issued.

Jamna Das Srinibas, Limited, 82/2, Muktaram Babu Street, Calcutta, and their workmen in connection with the case of Sri Lakshmi Kanta Jha, 396, Upper Chitpore Road, Calcutta, was referred for adjudication to Sri P. And whereas the said Sri P. R. Mukherjee, District Judge, has given the award as shown in the annexure hereto;

Now, therefore, in exercise of the power conferred by section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased to direct that the award be published in the *Calcutta Gazette.*

ANNEXURE.

In the matter of an industrial dispute between Messrs. Jamna Das Srinibas, Limited, 82/2, Muktaram Babu Street, Calcutta, and their workmen in connection with the case of Sri Lakshmi Kanta Jha, 396, Upper Chitpore Road, Calcutta.

PRESENT: SRI P. R. MUKHERJEE, *Chairman, Industrial Tribunal.*

For the Company—Sri Shyam Sundar and Sri Chattu Singh.

For the Union—Sri Lakshmi Kanta Jha.

AWARD.

By Government of West Bengal order No. 1847Lab., dated Calcutta, the 17th April 1950, and No. 3144Lab., dated Calcutta, the 10th June 1950, I had been appointed an adjudicator under sections 7 and 10 of the Industrial Disputes Act in the above dispute.

The case relates to the discharge of an employee, Lakshmi Kanta Jha, by the employer. The case of the applicant, employee, is that he had been a Jamadar of Messrs. Jamna Das Srinibas, Limited, of 82/2, Muktaram Babu Street, Calcutta, since January 1947 till 27th January 1950 when he had been dismissed without notice and that he claimed pay of 2 months and 27 days (pay of privilege leave for one month, pay of one month due to dismissal without notice and pay from 1st January to the 27th January 1950).

The Company appeared and filed written statement alleging that the employee left his services on his own motion after misappropriating the rent collected by him from the tenant of the employer. The only point for decision is if the employee is entitled to the wages as claimed.

On hearing both the parties, I persuaded the Management to pay Rs. 100 (Rupees one hundred only) to the employee as his wages by way of noble gesture to the employee. As the Management was very eager to settle the dispute, it readily agreed to pay Rs. 100 (Rupees one hundred only) by way of settlement. I, therefore, do not think it necessary to pronounce any verdict regarding the merits of the case. I rather congratulate the Management for this generous gesture shown to employee on my suggestion. I also place on record here the fact of cash payment of Rs. 100 (Rupees one hundred only) being paid in my presence on duly stamped receipt. As the dispute was thus settled by cash payment there is no more dispute now and I make award accordingly.

P. R. MUKHERJEE,
Judge, Industrial Tribunal.

The 17th June 1950.

By order of the Governor,
D. S. P. MUKHERJEE, Jt. Secy.

Subject:—Compulsory savings by Government servant through subscription to Provident Fund and emergency cut in pay for certain classes of Government servants.

No. T.M/151.—28th June 1950.—In continuation of this office notification No. T.M/135, dated the 12th May 1950; on the subject noted above, published at page 1002 of the *Calcutta Gazette*, dated the 25th May 1950, a copy of the Government of India, Ministry of Finance office memorandum No. F.23(7)-E.V./49, dated the 29th May 1950, is circulated herewith for the information of all concerned.

"The undersigned is directed to invite a reference to this Ministry's office memorandum No. F.23(7)-E.V./49, dated the 15th November 1949, on the subject indicated above. The question has now been raised as to how a Government servant should regulate his subscriptions to a Provident Fund when he reverts in the course of a financial year to a post in which his pay is Rs. 250 per month or less. If he wishes to continue as an optional subscriber after such reversion, it may not be possible for him to subscribe for the rest of the year at the minimum compulsory rate applicable to him before reversion, nor do the rules allow him to reduce the amount of subscription in the course of a financial year. The Government of India have decided that in such circumstances a Government servant may be permitted to refix the amount of his optional subscription with effect from the month subsequent to the one in which he has been reverted".

(*5*) Nothing contained in sub-section (*3*) shall apply to any award which by its nature, terms or other circumstances does not impose, after it has been given effect to, any continuing obligation on the parties bound by the award.

DIRECTORATE OF AGRICULTURE, WEST BENGAL

Calcutta, the 21st June 1950.

Third and Final Forecast of the Spring Oilseed Crops of West Bengal for the year 1949-50.

(*Note.*—Estimates of acreage under linseed and rape and mustard of this year as shown in this forecast are based on the results of random sample survey conducted by the Indian Statistical Institute. The increase in acreage under linseed and rape and mustard as shown in this forecast is not real as the figures of the two years compared here are taken from two different sources. The acreage under rape and mustard for the last year was 174,400 acres according to the results of the random sample survey method of the Indian Statistical Institute, which means there has been slight diminution of area this year though the figures here show increase. Therefore any explanatory notes reagrding the weather and crop conditions and causes of increase or decrease of the acreage in the respective districts are not given in the "Remarks column" for this forecast as the informations, in that regard, communicated by the Agricultural Staff do not agree with the figures, which are derived from two different sources, of the two years compared here. However, a report of the general condition of the weather in the province is given below.)

Season.—The weather and its effect on the growth and cultivation of the crop have been on the whole favourable except in the districts of Birbhum, Howrah, Hooghly and Jalpaiguri where drought has affected the growth of the crop.

Area and yield.—The total area under oilseed crops (except Sesamum for which separate forecasts are published) is estimated at 241,200 acres this year compared to 205,400 acres last year.

The average outturn per acre of different oilseeds is estimated at 4·41 maunds this year compared to 5·24 maunds last year.

Linseed.—60,700 acres are estimated to be under linseed this year compared to 44,200 acres last year, the average yield per acre being estimated at 3·50 maunds this year as against 5·20 maunds last year. Calculated on this basis the total yield of the crop for the province works out to 7,800 tons this year compared to 8,400 tons last year.

Rape and mustard.—160,900 acres are estimated to be under rape and mustard this year compared to 138,200 acres last year. The yield of rape and mustard per acre for the province as a whole is estimated at 4·90 maunds this year compared to 5·54 maunds last year. Calculated on this basis, the total yield of the crop for the province works out to 29,000 tons this year compared to 28,100 tons last year.

Other oilseeds (except Sesamum).—19,600 acres are estimated to be under other oilseeds this year compared to 23,000 acres last year. The yield per acre of other oilseeds for the province as a whole is estimated at 3·26 maunds this year as against 3·47 maunds last year. Calculated on this basis the total yield of the crop for the province works out to 2,300 tons this year compared to 2,900 tons last year.

LABOUR DEPARTMENT.

ORDER.

No. 3690Lab.—7th July 1950.—Whereas under the Government of West Bengal, Labour Department, order No. 276Lab., dated the 18th January 1950, the industrial dispute between Messrs. Burn & Co., Ltd., 20, Nityadhan Mukherji Road, Howrah, and their employees as represented by the Burn's Employees' Union of 22, Krishna Kamal Bhattacharjee Lane, Howrah, was referred for adjudication to Sri G. Palit, District Judge;

And whereas the said Sri G. Palit, District Judge, has given the award as shown in the annexure hereto;

Now, therefore, in exercise of the power conferred by section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), as amended by the Industrial Disputes (Appellate Tribunal) Act, 1950, the Governor is pleased to direct that the award be published in the *Calcutta Gazette*.

ANNEXURE.

In the matter of an industrial dispute between Messrs. Burn & Co., Ltd., 20, Nityadhan Mukherji Road, Howrah, and their employees represented by Burn's Employees' Union of 22, Krishna Kamal Bhattacharjee Lane, Howrah.

PRESENT: SRI G. PALIT, *District Judge, Chairman, Industrial Tribunal.*

Present for the Union: Sri K. N. Ganguly, Advocate, assisted by Sri P. Banerji, Pleader.

Present for the Company: Sri S. C. Sen, Advocate of Messrs. Orr Dignam & Co., Solicitors.

1. By an order No. 276Lab., dated the 18th January 1950, the Government of West Bengal constituted a Tribunal of one Judge under sections 7 and 10 of Industrial Disputes Act (Act XIV of 1947) and referred the said dispute to me for adjudication.

2. The reference was received on 24th January 1950. The Union filed its written statement on 18th February 1950. The Company filed its written statement on 6th March 1950. The issues were settled on 13th March 1950 after hearing both sides. After that, some time was taken to complete the steps of discovery and inspection of the documents. Thereafter several adjournments followed at the instance of the parties. The case was finally taken up for hearing on 1st May 1950. The hearing continued till 16th May 1950 practically from day to day with some breaks. The issues stand as follows:—

1. Does the present dispute lie in face of the award of the Engineering Tribunal? Does the said award preclude these claims in toto or even partially?
2. Revision of pay.
3. Dearness allowance.
4. Bonus.
5. Provident Fund, gratuity and other retiral benefits as pension, etc.
6. Different allowances as house-rent, travelling during duty, leave, etc.
7. Cheap-price canteen.
8. Other amenities as supply of uniform, umbrella, drinking water, etc.
9. Holidays and leave.
10. Improvement of service conditions relating to promotion, suspension, retrenchment, etc.
11. Classification of Sarkars, Checkers, etc.
12. Reinstatement of Jamahir.
13. Medical aid.
14. Extension of the benefits of this award to persons retiring between 17th January 1948 and the date of this award.

AWARD.

3. Before I specifically deal with the issues raised above, I think it will be worth while to give a succinct history and outline of the present dispute.

The Burn's Employees' Union was started as far back as 1947 for representation of the grievances of the members of the said Union. Prior to that, on 1st October 1946 the employees were informed by the employer, Messrs. Burn & Co., Ltd., of a scheme for regulating the pay and allowance of the clerical and menial staff. The proposed structure of pay and allowance was based on the original recommendations of the Bengal Chamber of Commerce. But this failed to satisfy the aspiration of the employees. The matter was eventually referred to an Industrial Tribunal known as the Mercantile Tribunal constituted for the purpose of determining the dispute between the employers and employees of various units which were members of the Federation of Mercantile Employees' Union. In that reference of Government, the present Union had the serial No. 192 assigned to it in the schedule. The Union actively prosecuted the matter but was eventually put out of court by the finding of the learned Judges who constituted the

Tribunal, because Messrs. Burn & Co. only figured in the order of reference and not Messrs. Burn & Co., Ltd. The Union thereafter made an amicable representation to the Management for implementation of the Mercantile Tribunal's award, the benefits of which came to be denied to the members only on a technical ground. The Management, however, refused to accede to the prayer. Thereafter, the Union submitted a charter of demands on 25th November 1949 practically reiterating the demands set forth before the Mercantile Tribunal. The Company refused to comply with the demands by its letter, dated 19th December 1949. So the matter was ultimately referred to this Tribunal when the attempts at conciliation by the Assistant Labour Commissioner fell through.

The Company contends that the benefits of the Engineering Tribunal were only available to the employees in question because the firm was an engineering concern and was included in the reference. The benefits of the award of the Mercantile Tribunal are out of place, both because of the award specifically ousting the Union and also because the firms governed by the said award were mere trading concerns as distinguished from the present engineering firm which is by its nature a producing-concern. The Company, however, has given specific replies to the points specifically raised by the issues. These will be dealt with as the issues are considered.

Issue No. 1.

The Company takes the definite stand that the dispute in question was decided by the Engineering Tribunal. In that view unless the Union can show that there has been a change of circumstances since then, the claim to vary the terms of the Engineering Tribunal's award cannot be sustained. The Union, on the other hand, contends that only the workers of the factory of the Burn & Co., Ltd., and not the clerks as here were before the Engineering Tribunal. No summons was served on the present Union. The present Union also did not appear before the said Tribunal. As a matter of fact, it is argued that the present Union could never have appeared before the Engineering Tribunal, because it was representing its grievances before the Mercantile Tribunal which was in progress at the time. Even if it is held that the workers of the Burn & Co., Ltd., in the Engineering Tribunal did include the clerical staff as well, still the award of the Engineering Tribunal has ceased to be operative after the expiry of one year from the publication of the award. So the award of the Engineering Tribunal, it is urged by the Union, can never preclude the present claims set forth by the Union. After a careful consideration of both these view points, I am clearly of opinion that this question at present is, more or less, academical. I am satisfied from the evidence on record that the present Union was not before the Engineering Tribunal. Section 18 of the Industrial Disputes Act of 1947 enables a section of the staff of a concern to present its grievances for adjudication by a Tribunal. That was what was done before the Engineering Tribunal, as far as this firm was concerned. Such an adjudication cannot necessarily bind the other section of the staff belonging to a different Union which is not represented there. Besides, it appears that the Company in the present case did not implement the award of the Engineering Tribunal with reference to the clerical and menial staff as represented by the Burn's Employees' Union. It is only when the claims of the present Union were thrown out by the learned Judges of the Mercantile Tribunal that the Company seems to have grown wiser. The Company did not like to forego the advantage arising from the resultant position. It was then that the Company wanted to foist the award of the Engineering Tribunal on the employees subscribing to the present Union. Besides the present Union was actively prosecuting its case before the Mercantile Tribunal. That is also

clearly significant to show that it was not before the Engineering Tribunal. The clerical staff of Messrs. Jessop & Co. were before the Mercantile Tribunal and as such, were exempted by the learned Judges of the Engineering Tribunal from the operation of the award passed by them. I, of course, cannot accept the Union's contention to extend the benefits of the award of the Mercantile Tribunal to the employees of the present Union on the ground that they were put out of court on a technical ground. But the present position, after all, does not appear to be complex. The tenure of operation of both the awards, I mean the Engineering Tribunal's award and the Mercantile Tribunal's award, has elapsed. So the present claims have to be decided on their merits and my hands are not fettered in the least. So I find that the present dispute is in order, in spite of the award of the Engineering Tribunal. The said award does not preclude any of these claims either in toto or even partially. The issue is thus answered.

Issue No. 2.—Revision of pay.

As I have already pointed out that the Burn's Employees' Union shaped the claims on the score of pay on the lines set forth in the Mercantile Tribunal's award. The Company has, on the other hand, budged slightly in advance of the terms contained in the Engineering Tribunal's award and placed this proposal before the Union as far back as 1st October 1946 (*vide* Ext. 1). The Company also increased the dearness allowance thereafter in conformity with the recommendations of the Bengal Chamber of Commerce. The existing pay and allowances as granted by the Company find place in Ext. A, dated 30th March 1950. The learned Advocate on behalf of the Union contends that the benefits of the Mercantile Tribunal's award must in their entirety be extended to these employees, if not on any other ground, at least on the ground that the employees of 12, Mission Row office get these advantages. Disparity of wages between these two offices is required to be removed by raising the salary of the employees at the Howrah office. I am afraid, I am not convinced by the arguments advanced above. The Howrah office is a part and parcel of an engineering concern. The Bengal Chamber of Commerce which is the guiding factor in the Mercantile Tribunal's award is a trading concern. The two cannot be put on a par for obvious reasons. Besides, the clerks in the mercantile firms are required to be of the finished type with much superior qualifications than those required in an engineering firm like the firm of Messrs. Burn & Co., Ltd., at Howrah. The works of the mercantile firms are also far more onerous and responsible than those in the engineering firms, which are more or less of a routined character. So I do not think that the claims of the employees of the Burn & Co., Ltd., at Howrah can be sustained, because of the fact that the employees at 12, Mission Row get a better salary and better advantages. One can never forget that one should be very cautious to raise the salary and allowances of an engineering firm because the resultant consequence may be far-reaching. Not only may it threaten to put small industries out of existence but even in a big industry, the raising of emoluments ultimately may react on the consumer public by raising the value of the goods produced. Taking all these facts into consideration, I am of opinion that the initial pay of the clerks in this firm is quite satisfactory and answers the exigencies of the situation quite well. Only I find that the increment in some cases requires a slight twisting-up and the maximum limit of the grade requires to be pushed up a bit. That will make for greater contentment among the workers while it will cost much less to the Company than if the salary is thoroughly revised. The Company will be required only to pay a higher salary to men with experience and to persons who have put in a considerable length of service. That deserves a recognition and the Company cannot grudge this slight increment of salary. I

set forth the salary in the different grades as per list furnished by the Company, marked Ext. A, which was in force on 3rd March 1950. The scales are revised as below:—

In revising the existing pay-scale of the Company, as shown in Ext. A, I have maintained, as far as possible, the minimum starting salary. As it will appear, I have only raised the maximum limit to an extent called for by the circumstances of the case. I may point out here that the Union claimed for the grades "C" and "D" a salary ranging from Rs. 100—300 with an annual increment of Rs. 10, for the "B" grade Rs. 150—375 with an annual increment of Rs. 15 and for the "A" grade Rs. 250—50 with an annual increment of Rs. 20. I am constrained to say that the claim has been pitched far too high. The clerks concerned are certainly not worthy of this pay considering their equipment and efficiency. I believe that the revised scale of pay, as formulated above, will satisfy the aspiration of the employees concerned which seems to have been tickled to a degree by the award of the Mercantile Tribunal. I have forgotten to mention the pay-scale of the Sarkars. I grant the Matriculate Sarkars a pay-scale of Rs. 50—70 with an annual increment of Rs. 2, and for the non-matriculate Sarkars I prescribe a pay-scale of Rs. 35—55 with an annual increment of Rs. 2. If the existing pay-scale of the Sarkars, which I do not know, is in excess of the above, they will be entitled to get the same. If not, they would get the benefit of the above scale. Though some of the Sarkars and Checkers do discharge functions akin to those of the clerks, yet it will not be prudent to incorporate them in the grade of the clerks. So the Union's claim to classify them as clerks is not accepted. I find also that excepting Messrs. Martin, Burn & Co., Ltd., other companies like J. Thomas & Co., Ltd., and Kil Burn & Co., Ltd., governed by the Mercantile Tribunal's award, maintain a separate class for the Sarkars. To fit in the clerks in the above grades, the Company should put them in the grade just above the grade they are occupying at present. I do not grant any flat rate of increment to the clerks in the present circumstances, because I do not think that it is called for by the exigencies of the situation.

Issue No. 3.—Dearness allowance.

The clerks in this case have been given dearness allowance according to the recommendations of the Bengal Chamber of Commerce. That scale is perfectly handsome and adequate so far as the clerks are concerned. Regarding the subordinate staff, they do not get the benefit of this scale I grant them the dearness allowance as below:—

Dearness allowance in the case of the sub-staff is given at the rate of Rs. 28 up to a basic salary of Rs. 50 per month, while the same is enhanced to Rs. 36 on a flat rate between the pay range Rs. 51—100. These will have prospective operation from the date of publication of the award.

Issue No. 4.—Bonus.

The Union has claimed bonus at the rate of two months' wages and also different kinds of bonus. I am told that the existing scale of bonus is one month's basic pay payable during the Puja holidays. I consider that as adequate under the circumstances. So I am not called upon to give any direction on the head of bonus.

Issue No. 5.—Provident Fund, gratuity and other retiral benefits as pension, etc.

The Union claims Company's contribution as well as the contribution of the employees at 12½ per cent. of the basic pay. I award the employees' contribution to be 10 per cent. of the basic pay and the Company will contribute a like amount. This is certainly in excess of what was granted under the award of the Engineering Tribunal. But then I may point out that the award of the Engineering Tribunal was very much weighed down by the fact that the rate which it was required to lay down must be applicable as much to the big companies as to the small ones. What was a little burden on the part of the big companies might prove very heavy on the part of the small concerns. But here I have before me one of the premier Indian engineering concerns which is solvent enough to grant this small concession quite easily. The Provident Fund contribution by the Company always endears it to the employees and so produces good-will and good relation between the employer and the employees. It is also a cord which gradually tightens in course of years and binds down the employees and the employer. So a slight enhancement in the rate of Provident Fund contribution, I am sure, will be taken in good grace by the Company, considering its salutary effect on the employees generally. Regarding gratuity, I do not allow it. The Provident Fund accumulation will go a far way towards old-age provision. Considering the very hard days which all industries are faced with generally at the present time, and the engineering concerns in particular, I do not think it advisable to impose any further burden on the Company at the present moment. Regarding old-age pension which has been claimed I may quote from the report of the International Labour Organisation, preparatory to the Asiatic Regional Conference that "these benefits, meaning pensions, are provided in other countries in the form of old age and surviver's pension either by means of social insurance or social assistance schemes. In either case, these involve substantial subsidies from public funds. The Central and Provincial Governments in India, at the moment, are unable to provide these subventions. The introduction of pension scheme must be preceded by a detailed investigation into the average period of employment and rates of mortality which will take time to complete. Moreover, the pension scheme is not likely to be of as much benefit as the Provident Fund scheme to a population of industrial workers with a large turnover such as the case here." There is much force in the above observation. I do not think, under the circumstances, I should allow any pension scheme in addition to the Provident Fund already allowed. The issue is thus disposed of.

Issue No. 6.—Different allowances as house-rent, travelling during duty, leave, etc.

The house-rent was taken into consideration in the matter of allowing dearness allowance. So a separate claim on that head is not maintainable. Besides, in the present case there is hardly any evidence to show that the clerks have rented quarters at a rate in excess of 10 per cent. of their pay. So I do not allow the claim.

Regarding travelling allowance during duty the learned Advocate for the Company assures me that the employees are always paid the expenses they incur for undertaking journeys on behalf of the Company. I do not think any elaborate scheme of travelling allowance such as obtains in Government offices, is called for in the present case where the clerks are not ordinarily required to move out for office duty.

Regarding the claim for travelling allowance to go out on leave and for return or for luxury leave periodically, I must say that the claim is almost fantastic. I do not know if there is any company which does allow such a claim. I turn down the claim of the Union on this point.

Issue No. 7.—Cheap-price canteen.

I had undertaken a local inspection at the office of the Burn & Co., Ltd, at Howrah with the learned Advocates of both sides. I also paid a visit to the canteen within the precincts of the office. What I saw, was to say the least most deplorable for such a large number of staff as of this Company. I found hardly any sitting accommodation for even a dozen clerks taking tiffin at a time. It is an old building with a hall which was almost heated to a furnace point, because of the ovens which were burning there. One can hardly feel comfortable to take his tiffin at a place like this, even if there was accommodation. The staff of the Company made apologies for this wretched condition and promised to open up at an early date a suitable canteen. They stated that old buildings are practically all dismantled and are replaced by new ones and that a suitable arrangement will be made for the canteen. Now as the construction of the new building is bound to take some time, I call upon the Company to make some tentative arrangement for the present. The Company may pitch a big tent in front of the present canteen and place some benches and tables for the service of tiffins to the clerks. I am told by the learned Advocate of the Company that the Company is thinking of providing some suitable place for tiffin on the top floor of the present office building which is air-conditioned. If that arrangement is made, certainly that would be by far the best that can be devised at the present moment. The clerks now have to move out from the air-conditioned office and travel a fairly long distance under the sun and rain to reach the place where the present canteen is situated. In the face of the above assurance by the Company that they will make suitable arrangement at an early date regarding canteen I do not think it worthwhile to make any specific recommendation in this respect. I only draw the attention of the Factory Inspector to see that the canteen does answer the requirements of a prescribed regular canteen in a big engineering firm like this.

Regarding cheap-price canteen, the Company is not agreeable to entertain the proposal. But I call upon the Company to bear the expenses of the establishment of the canteen and also to provide wholesome food at the cost price. I also ask the Company to improve the kitchen in the canteen where some clerks are reported to be taking their meals if they have to attend their office rather too early on some occasions. That kitchen appeared to me to be a very dark corner in a most unsatisfactory condition with foul smell. I must frankly confess that I did not expect such a kitchen-room for the clerks to take their meals in, while they are lodged for office duty at an air-conditioned building which is certainly otherwise very attractive.

Issue No. 8.—Other amenities as supply of uniform, umbrella, drinking water, etc.

Regarding the supply of uniform, the Company says that it does supply uniforms to the Darwans and the Guards both during the winter and the

summer. There is no specific case before me where such supply was withheld. It is certainly the lookout of the Company to see that the outfit does not undermine the prestige of a big firm like this. I leave that to the discretion of the Company. Regarding umbrella the Company says that it does supply umbrellas to persons who are required to move out on duty. The only restriction that is imposed is that the umbrellas are not allowed to be taken home. They are required to be left back in the office when leaving for home. I do not find fault with such a restriction.

Regarding supply of drinking water at the table, the complaint is that this privilege has been withdrawn with the removal of the office to the present air-conditioned building. The Company says that the strength of the bearer staff has been reduced with an eye to economy. So there are not enough bearers to supply the clerks with drinking water at the table. The place where the drinking water tap is installed lies at the end of the office. The clerks may have to pass through the whole of the office to reach the place to have a glass of water. That certainly means some wastage of time of the working hours. But there is no grievance that the Company grudges this wastage of time. In the circumstances I cannot call upon the Company to increase the strength of the bearer staff, only to provide this amenity to the clerks. So I do not give any direction to change the existing arrangement so far as the supply of the drinking water is concerned.

It was pointed out to me during local inspection that the main entrance is at the farthest end of the premises such that the clerks have to go all the way and come back to enter the office. This is the lookout of the Company. I only call upon the Company to consider this matter in reckoning the attendance. The Company should make allowance for this as well as for only one punching clock being there for so many clerks. I give no direction as it was not called for by the issues. The working hours of the Company do not contravene the Factory Act requirements. Neither are they such as require interference.

Issue No. 9.—Holidays and leave.

Under the existing arrangement the Company grants privilege leave for 14 days on full pay, casual leave for 10 days on full pay and sick leave for 30 days on full pay or 60 days on half pay during a year. Besides the above the Company grants 10/12 holidays per annum. The Union demands privilege leave for one month with full pay and allowances, casual leave for 15 days on full pay and allowances and sick leave for one month on full pay and allowances, besides holidays declared under the Negotiable Instruments Act. The Union also demands quarantine leave and special long leave for 3 months on full pay and allowances. It will not do to forget that the clerks in question belong to an engineering concern. If they are allowed leave much in excess of the leave granted to the workers under the Engineering Tribunal, the position will be rather anomalous. The workers and the clerks form one compact whole, so far as the conducting of the business in the firm is concerned. So, apart from other reasons, if the clerks are allowed all the leave they have asked for, the work of the concern as a whole will be to a great extent prejudicially affected. Now, when production stands in more need of being stepped up than at any other time, the enlargement of leave conditions will materially hamper it. Besides, the existing leave available to the clerks seems to be quite adequate in my opinion. The number of holidays is also just as it should be in a concern like this. So I turn down the Union's claim in respect of widening the number of holidays and leave.

Issue No. 10.—Improvement of service conditions relating to promotion, suspension, retrenchment, etc.

Regarding promotion, the Union wants a certain percentage to be guaranteed. The Company strongly opposes this. A guaranteed percentage of promotion from one grade to another is impracticable for obvious reasons. Efficiency and good service record as well as seniority should be the determining factor in such a case. The number of persons to be promoted cannot necessarily be fixed with any amount of definiteness. So the Union's demand regarding promotion is vague and unsustainable. Regarding suspension, the delinquent clerk should be given an opportunity to explain his conduct. Before the passing of the final order of penalty, the clerk concerned should be given a charge in writing of the offence he is accused of. The learned Advocate of the Company assures me that this is the practice in vogue. So, no direction is called for on this head. Regarding retrenchment, the Union demands that an employee can only be discharged by an appropriate Tribunal. This demand is more than what can be sanctioned by any Tribunal. Retrenchment or discharge must always be left in the hands of the Company according to the requirement of the business. Only when the discharge or retrenchment is done with a bad motive or with a view to stifle down the legitimate expression of grievances, the matter comes within the purview of the Industrial Tribunal. Regarding confirmation in service the existing arrangement of six months' period of probation is quite good. Gratuity on termination of service which is claimed by the Union is also disallowed for reasons already given.

Issue No. 11.—Classification of Sarkars, Checkers, etc.

I have already given my grounds why I do not approve of putting the Sarkars and the Checkers in the same class with the clerks. I do not repeat. I have also pointed out that such a classification does not find favour with most of the engineering concerns. In my opinion that is right. So I turn down the claim under this head.

Issue No. 12.—Reinstatement of Jamahir.

The Union contends that Jamahir was suffering from bowels-complaint. He had nobody to send the information to the office about his illness. He was discharged by the Company. The Union demands his reinstatement. The contention, as I find on evidence, is misconceived. The letter (Ext. E) shows that Jamahir informed the Company on 10th January 1950 that he would be unable to do his work as the working hour did not suit him. He absented since that date and did not send any information of his illness. On 12th January 1950 the Company was informed by the Head Sweeper that Jamahir was working elsewhere and did not intend to return to his duty. Jamahir's father is employed in the firm. Though he may be living separately from Jamahir, as is suggested by the Union, it is clear that Jamahir was not discharged because of illness. Jamahir does not turn up before me. The Union Secretary speaks from hearsay evidence which does not stand scrutiny. So the question of reinstatement of Jamahir does not arise.

Issue No. 13.—Medical aid.

The grievance under this head seems to be two-fold, viz., (1) that the present Medical Officer-in-charge is incompetent or callous and his opinion

seems to be the last word with the Company in the matter of discharge of an employee on medical grounds and (2) that the employees as well as the members of their family do not get good medicines at the dispensary. I paid a visit to the dispensary during my inspection in Company with the Advocates of both sides. I had a talk with the Medical Officer-in-charge. He was a fully qualified medical man having M.B. and other degrees. He is, of course, a part-time visitor to the dispensary at stated hours. But there are four passed compounders who attend the dispensary during all the working hours. The printed rules of the Burn & Co., Ltd., show that the employees and their family members will get free treatment and medicine from the dispensary. The Medical Officer-in-charge told me that such treatment and medicines are supplied if the employees and their family members present themselves at the dispensary. It is too much to expect that the Medical Officer will visit the houses of the employees in case of sickness of the employees or their family members. I am told that only stock mixtures are given at the dispensary. I must frankly confess that I found the dispensary rather too ill-equipped for such a big firm where so many hands are employed. I call upon the Company just to improve its stock of medicines and also other necessary medical equipments. Regarding complaints against the particular doctor, I mean, the present incumbent, several instances have been referred to by the Union. The said Medical Officer did not permit one Sambhu Chatterji to join even though he got a certificate about his eye-troubles from the Professor of Opthalmic Surgery at the Calcutta Medical College regarding his fitness to join. This man had a very high eye-power which, according to the Medical Officer, stood in the way of efficient discharge of his duties. So far as efficient discharge of duties is concerned, I think, the matter must rest with the Company. It is up to the Company to accept either its Medical Officer's advice or the advice of the other doctor though better qualified. In the case of Sri H. D. Mukherji the Company paid the fees of Dr. Mani De for examining him. He was granted leave. So I find no scope for grievance under this head, even if the Medical Officer failed properly to diagnose. Sri Mokshoda Charan Bhattacharya had a gum-boil and it is alleged that the Medical Officer did not properly treat him. But here also I do not find any scope for grievance against the Company even if the doctor did not prove as much efficient as he should have been. The proper course in such a case would be to draw the notice of the Company to the specific instances of negligence and to seek redress.

Regarding the supply of costly medicines to the clerks, the Union complains that the Company is not as benevolent as it had been in the past. It may be true, but now-a-days costly medicines are hardly supplied by any Company unless it is a concern dealing in medicines. So I cannot give any direction on this head. But I call upon the Company to see its way to meet the medical needs of its employees as far as possible and as far as the gravity of the matter demands.

Issue No. 14.—Extension of the benefits of this award to persons retiring between 17th January 1948 and the date of this award.

The Union claims that the benefits of this award must be extended to persons who have retired between 17th January 1948 and the date of this award. I do not see how this claim can be sustained. I could have understood if the claim was made with effect from the date of the present reference, i.e., from 18th January 1950. Even when the claim was disallowed by the Mercantile Tribunal, the same benefits which were asked before that Tribunal cannot be asked for here with any amount of force. So I decline to extend

the benefit of this award to persons who have retired after 17th January 1948 simply because the claims of the Union have been outstanding for over two years. So the claim under this head, as set forth by the Union, stands disallowed.

A. Firpo, Ltd., 18/2, Chowringhee, Calcutta, and their employees as represented by Firpo's Employees' Union, 30/2A, Serpentine Lane, Calcutta, in connection with the case of Sri S. K. Banerjee and six other employees mentioned in the list attached with the said order, dated the 27th March 1948, was referred for adjudication to Sri G. Palit, District Judge;

And whereas the said Sri G. Palit, District Judge, has given the award as shown in the annexure hereto;

Now, therefore, in exercise of the power conferred by section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased to direct that the award be published in the *Calcutta Gazette*.

ANNEXURE.

In the matter of an industrial dispute between Messrs. A. Firpo, Ltd., 18/2, Chowringhee, Calcutta, and their employees represented by Firpo's Employees' Union, 30/2A, Serpentine Lane, Calcutta.

PRESENT: SRI G. PALIT, *District Judge, Chairman, Industrial Tribunal.*

Present for the Union—Sri P. K. Sanyal, Advocate, along with Sri Krishnadhan Banerji, Secretary.

Present for the Company—Mr. E. R. Meyer, Counsel, instructed by Sri B. B. Sinha of Messrs. Leslie & Hinds, Solicitors.

1. By an order No. 924Lab., dated the 27th March 1948, the Government of West Bengal constituted a Tribunal of one Judge under sections 7 and 10 of the Industrial Disputes Act (Act XIV of 1947) and referred the said dispute to Sri P. K. Sarkar for adjudication. After a time, his services not being available, the Government of West Bengal, by a subsequent order No. 767Lab., dated the 16th February 1950, referred the said dispute to me for adjudication after due appointment.

2. The reference was originally received on 1st April 1948. The Union filed its written statement on 27th April 1948. The Company filed its written objection on 7th May 1948. The issues were settled in the presence of lawyers of the parties on 13th May 1948. Then the proceeding was stayed by a Rule of the Hon'ble High Court of Calcutta on 27th May 1948. The said stay order was lifted on 9th November 1949. Some time was taken for inspection and other steps. I came in charge of the case on 17th February 1950. After several adjournments the case was taken up for final hearing on 10th June 1950. After the case was opened, there was a talk of compromise between the parties. The talks materialised and a petition of compromise was eventually filed.

3. The issues stand as follows:—

(1) Does the discharge of the seven employees of the Company named in the Government order amount to victimisation and unfair labour practice?

(2) Can the said employees be reinstated? Has this Tribunal jurisdiction to order such reinstatement? What relief should be granted to the said employees?

AWARD.

Issues 1 and 2.

I need not go into details about the written statement filed by the parties before me. The Union contended briefly that the Company was in a flourishing condition. It did not grant adequate pay and allowances to its employees. Accordingly, the Union was formed to ventilate the grievances of the workers. The Company, with a view to wreck the Union, discharged certain employees without sufficient justification on the plea of retrenchment on economic grounds. The Union contends that this move was actuated by a *mala fide* motive on the part of the Company. During the hearing, the Union pressed the case of three employees only. The Company, on the other hand, denies its increasing prosperity. It contends that after the cessation of the war, the financial position of the Company has dwindled down greatly; particularly, as the result of prohibition in force in free India. The Company, however, resists the claim for reinstatement or compensation of these three discharged workers.

As the parties, during the hearing, have come to terms and filed a petition of compromise before me, I need not adjudicate upon the matter on evidence. The issues are disposed of in terms of the said petition. In the petition of settlement the terms of adjustment have been recorded. It calls upon the Tribunal to record an award of "no dispute" in respect of the matter under reference. I accept the prayer and record the award accordingly. The petition of settlement, as per Annexure A, will form part of this award, which is one of there being no present dispute between the parties.

G. PALIT,
District Judge,
Chairman, Industrial Tribunal.

The 16th June 1950.

ANNEXURE A.

BEFORE SRI G. PALIT,

Tribunal, appointed under the Industrial Disputes Act, 1947.

In the matter of an Industrial Dispute between Messrs. A. Firpo, Ltd., and their employees represented by Firpo's Employees' Union.

The humble petition of the Employers and the Employees named above.

MOST RESPECTFULLY SHEWETH:—

That the parties hereto have settled their disputes on the following terms, viz.—

(*a*) that each of the workmen, viz., Sri P. C. Ghoshal, Sri S. N. Mukherjee and Sri L. M. Bhattacharjee, shall be paid Rs. 660 (Rupees six hundred and sixty only) as *ex-gratia* payment;

(b) that they shall get such amount standing to their credit in the Provident Fund account including Company's contribution up to the date of their discharge;
(c) that all allegations against the Company are withdrawn;
(d) that the above payment now made to these workmen shall not be taken as a precedent either by the employer or the employees or the Union or be used in any manner in any subsequent dispute between the parties;
(e) that an award should be made to the effect that there is no dispute now pending between the parties.

Your petitioners therefore pray that the above terms may be recorded and an award may be made to the effect that no dispute is now pending between the parties.

And your petitioners, as in duty bound, shall ever pray.

C. CORTI,
Director, A. Firpo, Ltd.
10-6-1950.

It has been noticed that in certain treasuries the payment schedules have not been prepared in two parts as directed in the Government order cited above. It has also been noticed that payments made to certain classes of officers who are non-gazetted but who draw their own claims in the gazetted officer's bill form have been included in Part I of the schedule instead of in Part II. As this defeats the purpose for which the system of preparing schedules in two parts has been introduced by the Government it is requested that particular care should be taken to see that the two parts of the schedules are prepared correctly. Payments to the following officers should be shown in Part II of the schedule although these officers draw their pay in gazetted officer's bill form:—

(1) Jailors.

(2) Sub-Assistant Surgeon.

(3) Rationing Officer.

(5) Special Officer, Debt Settlement Board, West Bengal.

Memorandum No. F.B.419-49G.A., dated Calcutta, the 1st March 1949.

From—The Commissioner of Police, Calcutta,

To—The Secretary to the Government of West Bengal, Local Self-Government Deparment.

I am forwarding herewith the Annual Report of the Calcutta Fire Brigade for the year ending 31st March 1948.

During the year under review the general working of the Brigade was satisfactory.

No. F.B.212, dated Calcutta, the 24th February 1949.

From—The Chief Officer, Calcutta Fire Brigade,

To—The Secretary to the Government of West Bengal, Local Self-Government Department (through Sri S. N. Chatterjee, B.A., I.P., J.P., Commissioner of Police, Calcutta).

I beg to submit the following report on the working of the Calcutta Fire Brigade during the year ending 31st March 1948.

The year under review has been also an exacting one like the previous year as the Brigade had to face with many unprecedented situations due to the arson fires that occurred during the first part of the year (i.e., up to 15th of August 1947) when the communal frenzy was running high in the city. On the 15th of August 1947 when India attained Independence, a miracle was established in the city by ending the communal disturbances with the revival of the spirit of common citizenship and the Brigade was comparatively relieved from the numerous calls of arson fires and false alarms.

All through the period of disturbances, the members of the Brigade worked hard, loyally and faithfully and in order to meet the riotous mob and difficult situations, the timely assistance of the Police was also extended to them by providing armed escorts, etc.

The actual number of fire calls for fires or supposed fires were less than that of the previous year by 400. The decrease was due to the ending of the communal unrest in the city from the 15th of August 1947.

Excepting a few, practically all the fire alarm pillars were put out of commission by the rioters. The Indian Posts and Telegraphs Department, who was informed from time to time with the report describing the positions of the fire alarm pillars, took necessary actions to put the alarm pillars in commission, as far as practicable. The citizens should be more self-conscious and alive of the importance of the fire alarm pillars, specially at a time when genuine fires occur and they should always be careful not to misuse this valuable service.

The most outstanding feature during the year under review with the attainment of Independence of India, was the partition of the Province of Bengal, into East Bengal and West Bengal (the former under the Government of Pakistan and latter under the Government of Indian Union) and in consequence of which the personnel of the Brigade, like other Government servants, were allowed to use their option to serve either under the Government of East Bengal or West Bengal. Out of 1,075 Officers and men of the Brigade, 312 Officers and men opted for East Bengal and the remainder remained to serve in West Bengal.

Due to the constitutional changes in India, the European and Anglo-Indian members of the Brigade, alike other European and Anglo-Indian Police Officers, were allowed to retire prematurely on proportionate pension and out of 15 European and Anglo-Indian Officers of the Brigade, 7 expressed their desire to retire on proportionate pension.

During the disturbance period on 1st September 1947, one leading fireman named Sk. Barkatullah of the Brigade, while proceeding to a fire, was seriously injured by gun-shot owing to some unknown person firing on the Brigade party and as a result of which, he was invalided from the service and had to retire on invalid pension. He was also granted compensation under the Workmen's Compensation Act.

The present strength of the Brigade consists of both permanent and temporary staff. The jurisdiction of the Calcutta Fire Brigade proper having been expanded, additional strength and equipment were sanctioned by Government. The distribution of the staff and appliances in respect of the Calcutta Fire Brigade proper and Expanded Fire Brigade (permanent and temporary) are shown in Appendix VII.

The street hydrants and other sources of getting water for the purposes of fighting fires are often found in a very unsatisfactory condition, particularly during the riot period. Arrangements were therefore made to obtain another 14 Mobile Water Units, and these Units rendered valuable services in time of emergency.

The jurisdiction of the Calcutta Fire Brigade as permanently expanded includes the municipal areas of Calcutta, Howrah, Garden-Reach, Tollygunge, South Suburban, Bally, North Dum Dum, South Dum Dum and Baranagore. The whole area protected by the Fire Brigade has been divided into 3 Districts, viz., "North" District, "South" District and "Howrah" District having the following stations located in each:—

"North" District—(1) Central Avenue, (2) Nimtolla, (3) Cossipore, (4) Dum Dum (North and South) and (5) Baranagore.

"South" District—(1) Headquarters, (2) Kalighat, (3) Garden-Reach, (4) Coal Berth, (5) K. G. Dock, (6) Behala and (7) Tollygunge.

"Howrah" District—(1) Howrah Main, (2) Sibpore and (3) Bally.

Besides the above, the war-time stations of China Town and Canal West Road with 5 and 3 pumps, respectively, are still maintained on a temporary basis and the Government has been approached to maintain these stations permanently owing to the density of population in the city and the fire-risk involved for the establishment of various types of new factories in and about the city.

Fire stations in the added municipal areas are still accommodated in the hired premises acquired during the emergency period. The arrangement for construction of permanent fire stations should be made to meet the requirements.

Due to enlargement of staff after the reorganisation of the Calcutta Fire Brigade by Expanded Fire Brigade, permanent stations of the Calcutta Fire Brigade proper have been over-congested. Due consideration should therefore be made for expansion of the present permanent stations.

Financial statement.—The statement of receipts and expenditure made by the municipalities within the jurisdiction of the Fire Brigade and Licensed Warehouse Act, I of 1893, is given in Appendix I.

The cost of maintenance of the Fire Brigade is contributed by (*a*) the Calcutta Corporation, (*b*) the Howrah Municipality and (*c*) the Garden-Reach Municipality at the rate of 83·5 per cent., 14 per cent. and 2·5 per cent., respectively.

Fees for licensed, warehouses are charged under section 10 of the Licensed Warehouse and Fire Brigade Act, I of 1893, and are levied at 10 per cent. of the valuation of warehouses, subject to a maximum of Rs. 1,500 per warehouse per annum, and the income thus derived provides the 50 per cent. of the cost of the upkeep of the Fre Brigade under the Act.

Fires, etc.—The total number of calls to fires or supposed fires was 1,708, being a decrease of 400 with the previous year. The actual number of fires attended was 1,281 which shows a decrease of 462 as compared with previous year and the number of fires classed as serious (i.e., over Rs. 20,000 damage per fire and over, see Appendix III) was 33, being a decrease of 66 as compared with the previous year.

I am sorry to report that the number of wilful false alarms of fire given from fire alarm pillars in the public streets has increased. 418 calls of this nature were received during the year under review as compared with 281 calls of the previous year.

The calls are classified as follows:—

Fatalties and accident.—Appendix VI gives short reports of fires and special occurrences involving loss of life or serious accidents.

The number of lives lost at fires during the year under review is 12 being an increase of 2 as compared with the previous year.

Whenever necessary, First-Aid was rendered by the Fire Brigade and the injured persons conveyed to Hospital by Motor Ambulance.

Water-supply.—In Calcutta, water for fire extinguishing is obtained from the unfiltered water-supply system maintained by the Corporation of Calcutta with pumping stations located on the banks of the river Hooghly at Mullick Ghat and Watgunge.

Fires in Cossipore-Chitpore and adjoining areas are extinguished with water supplied from Static Tanks, many of which are replenished only during the monsoons.

In Howrah, the conditions cannot be said to be satisfactory, although there are some hydrants on the filtered water-supply for being used at fires. The authorities may consider the installation of more hydrants.

The mobile water units stationed at each District also rendered valuable service for extinguishing fires.

Fire float.—The fire float (5,000 gallons per minute capacity) is stationed on the river opposite the Princep's Ghat. During the year under review, it has responded to 5 calls as compared with 2 calls in the previous year.

Street fire alarms, telephones and electrical communications.—Extensive damage to the street fire alarm pillars was done by the mob during the communal disturbances causing great inconveniences to the working of the Brigade.

I am pleased to record my appreciation of the services rendered by the Indian Posts and Telegraphs, Telephone Department to re-instal and repair those fire alarm pillars.

Inspection Department.—The majority of theatres, cinemas and other places of public amusement, with few exceptions, have no serious fire-risks and there were no serious fires during the year under review.

In connection with the Licensed Warehouse and Fire Brigade Act, I of 1893, 6,800 inspections of Warehouses have been made during the year. Four hundred and eighty-five applications and complaints have been attended to and disposed of. Thirty-seven prosecutions were made under section 14 of Act, I of 1893, which resulted in 22 persons being fined, the fines aggregating in all Rs. 368. Four cases were withdrawn and 2 cases were warned and discharged and one was acquitted. Eight cases were filed due to no trace.

Subject:—Application of Central schemes of compulsory savings to employees taken over from Part "B" States on Federal Financial Integration.

No. TM/161.—10th July 1950.—It has been decided by the Government of India, Ministry of Finance, that so long as the employees from Part "B" States taken over by the Central Government on Federal Financial Integration are on their existing scales of pay they should continue under such compulsory savings schemes as may have been introduced by the State Government before such integration and that Central schemes of compulsory savings should not be applicable to them. They will come under such Central schemes as may be in force as soon as they are absorbed in Central scales of pay.

All Treasury and Sub-Treasury Officers in West Bengal and all Drawing and Disbursing Officers of the Central Government under audit of this office should note this decision.

(Government of India, Ministry of Finance, office memorandum No. D.5896-BI/50, dated 19th June 1950—Dy. India 2505/TM-701 filed in Ble. TM/9-38 of 49-50.)

Subject:—Incidence of House Rent Allowance and Compensatory (City) Allowance.

No. TM/162.—13th July 1950.—The following decision of the Government of India, Ministry of Finance, is hereby circulated to all the Drawing and Disbursing Officers of the Central Government under the audit control of this office:—

(1) The expenditure on house rent allowance and compensatory (city) allowance relating to post partition period payable to the India-opted staff

retained in Pakistan after partition should be allocated as follows, as the Pakistan Government have accepted Central Pay Commission's recommendations in respect of house rent allowance and compensatory (city) allowance though not the recommendations regarding pay scales:—

(i) House rent and compensatory (city) allowances based on the unrevised pay drawn in the existing scale are debitable to that Government.

(ii) The extra element of house rent allowance and compensatory (city) allowance representing arrears payable to those Government servants who opted for India finally in the first instance, on account of increase in pay due to the Central Pay Commission's recommendations, is debitable to the Government of India. If this extra allowance had already been paid by the Pakistan authorities to these Government servants then necessary credit for the element should be afforded to the Pakistan Government by debit to the Government of India. In the case of Government servants who had opted for Pakistan initially and changed their option subsequently to India, this extra element is not payable for the period of their retention in Pakistan after 14th August 1947. If, however, they have already been paid the extra element by the Pakistan authorities the amounts paid in excess should be recovered and credited to the Government of Pakistan.

(2) The Drawing and Disbursing Officers of the Central Government under audit of this office are hereby requested to examine whether in view of the instructions noted above any readjustment in accounts is necessary due to the extra element of house rent allowance and compensatory (city) allowance, if any, already paid by the Pakistan authorities to those Government servants who opted for India finally in the first instance, on account of increase in pay due to the Central Pay Commission's recommendations and whether any extra element of such allowances has already been paid by the Pakistan authorities to those Government servants who had opted for Pakistan initially and changed their option subsequently to India, for the period of their retention in Pakistan after 14th August 1947. If so, arrangements should be made for effecting necessary readjustments as indicated above in respect thereof in consultation with this office.

No. 57-ST(Int)IT/49, dated 7th June 1950, that in assessing salaried persons in Part "B" States, the rates of tax applicable will be, not the rates prescribed by the Finance Act, 1950, but the rates prescribed by the States Acts which were in force immediately before the 1st April 1950, or in other words the computation of income-tax from salary and the grant of rebates will be made under the Indian Law, the rates applicable however being the rates in force in the States before 1st April 1950.

The parcels or packets will remain throughout in the custody of the Post Office Officials, but if it comes to the knowledge of the Appraiser at the time of examining any parcel or packet that its contents are damaged or short a note thereof shall be made on the parcel or packet bill.

(8) If on examination the contents of any parcel or packet are found to be misdescribed or the value understated or to consist of prohibited goods such parcels or packets shall be detained and reported to the Customs Collector, and the Postmaster shall not allow such parcels or packets to go forward without the Customs Collector's orders.

ANNEXURE.

In the matter of industrial disputes between Messrs. Britannia Building and Iron Co., Ltd., and Messrs. Holmes Wilson & Co., Ltd., Stephen House, 4, Dalhousie Square, East, Calcutta, and their workmen represented by Association of Employees' Unions, Commercial Buildings, Block No. 3, 2nd Floor, 23, Netaji Subhas Road, Calcutta.

PRESENT: SRI SAILESH CHANDRA CHAKRAVARTI,
Chairman of the Tribunal.

For the Companies—Sri K. K. Mitra, Technical Director, assisted by Sri M. M. Kalanee, Secretary.

For the Unions—Sri Jitendra Kumar Banerjee, Secretary.

By their order No. 2513Lab., dated the 18th May 1950, Government of West Bengal, Labour Department, under sections 7 and 10 of the Industrial Disputes Act, 1947, referred to me for adjudication the industrial dispute existing between Messrs. Britannia Building and Iron Co., Ltd., and Messrs. Holmes Wilson & Co., Ltd., Stephen House, 4, Dalhousie Square, East, Calcutta and their workmen represented by Association of Employees' Unions, Commercial Buildings, Block No. 3, 2nd Floor, 23, Netaji Subhas Road, Calcutta.

The dispute relates to the following twelve points:—

(1) Pay scale.

(2) Bonus.

(3) Retiral benefits.

(4) Retiring gratuity.

(5) Tiffin.

(6) Medical aid.

(7) Working hours and overtime.

(8) Recruitment rules.

(9) Uniforms and umbrellas.

(10) Service conditions.

(11) Recognition of the Union.

(12) Works Committee.

AWARD.

Point 1—Pay scale.

Bengal Chamber of Commerce is an association of business firms for mutual benefits. While the parent organisation is so named—it has other organisations, either departmental or working in collaboration. These are Indian Jute Mill Association, Indian Engineering Association, etc.

In October 1947 a tribunal was set up for the engineering industry and those who were members of the Engineering Association were included in it.

In January 1948 another tribunal was set up known as Mercantile Tribunal including all the firms affiliated to the Bengal Chamber of Commerce.

Some engineering firms had trading business and were members of the Bengal Chamber of Commerce and they came under the jurisdiction of both the tribunals.

For the Engineering Tribunal a new set of judges were appointed, but for the Mercantile Tribunal the judges who were engaged with the adjudication of Cotton Textile Industry were appointed. The result was this that while the work of the Engineering Tribunal progressed fast and the award was made in June 1948, the work of the Mercantile Tribunal could not be seriously taken up till the award of the Cotton Textile Industry was made in the end of July 1948.

Another point to be noted is that the reference to the Mercantile Tribunal was confined to the head offices in Calcutta mostly round about what is known as the Old Clive Street area.

Some of the engineering firms had their head offices in Clive Street area and as some became members of the Bengal Chamber of Commerce as general traders, they came under both the adjudications.

In view of the over-lapping some employees of the head offices got themselves excused from the Engineering Tribunal while there was no well-planned move on the part of the employees.

The Mercantile Tribunal had to tackle the situation of these head offices where the award of the Engineering Tribunal became binding. As no award could be imposed on another award during its continuance, it had to dismiss those head offices from the adjudication.

The present Company has its workshop at Howrah with the head office in Dalhousie Square area. This was a member of the Engineering Association as also of the Bengal Chamber of Commerce. The employees of the head office did not execuse themselves off from the Engineering Tribunal. After the expiry of the period of the award of the Engineering Tribunal, the employees of the head office have raised disputes. The demands have been placed at a higher pitch, but the real intention is to get an award at par with the generality of the awards of the Mercantile Tribunal.

Recently another tribunal has been set up to consider the question of dearness allowance and leave of the employees of the firms covered by the Engineering Tribunal. These two points are not before me.

The Engineering Tribunal did not propose any uniform scale of pay for the employees of all the firms. There were firms of different grades and what the Tribunal did was to lay down the minimum scale of pay. The employees here were getting more and in terms of the award these were not to be affected.

It has been contended that since there has been an award regulating wages, no alteration should be made unless there be a change in circumstances. The preponderence of judicial opinion is that no change should ordinarily be made unless there be a change in circumstance. I agree with the view that unless there be a change in circumstance a pay structure, once made by an adjudicator, ought not to be disturbed.

Subject-matter of an adjudication may be divided into two parts: grievances for actions done in past and for prospective advantages. So far as the former classes of grievances are concerned, the award gives a finality—an irrevocable finality to the matter. These matters ought not to be re-opened under any circumstances. So far as prospective matters are concerned, the position is dynamic in nature and further advances or retrogression may be made with altered conditions. Fixation of pay scales, dearness allowance, etc., will come under the second category, while cases of dismissal or punishment, benefits for past services come under the first category.

I have already said that the Engineering Tribunal had to deal with collectively a large number of firms—big and small, factories and also head offices. The adjudicators therefore fixed a minimum scale of pay and dearness allowance leaving the higher emoluments unaffected.

The pay of the employees of the head offices was not practically touched as the employees were getting higher pay. So, in a way, pay was not adjusted by an award. The effect of the award was only a prohibition against reduction below a certain level.

Since then a material change has occurred. This is the publication of the award of the Mercantile Tribunal. By the award the salaries of the employees of head offices located round about the Clive Street area and affiliated to the Bengal Chamber of Commerce were enhanced. The wages in the vicinity and of the employees of the firms associated with the Bengal Chamber of Commerce were increased. The award related only to the head offices. Therefore, there has been a change in the circumstances to raise the salaries of the employees attached to the head offices only and of no other. The award will therefore affect the employees attached to and usually working at Stephen House, 4, Dalhousie Square, East, Calcutta, where the head office of the Company is located.

The award of the Engineering Tribunal cannot be changed so far as the floating employees or the employees of the Shalimar Works are concerned. The wages of the persons who do not work usually in the head office will not be affected.

While agreeing on principle that the Bengal Chamber of Commerce scales should be introduced, there are some practical difficulties in copying out the various scales of pay there. The principal difficulty is that in the Bengal Chamber of Commerce case it was found that the employees were mostly matriculates. At any rate, that was the idea conveyed to us and we proceeded on that assumption. We laid down a lower scale for those who were non-matriculates. Here the position is different. Most of the men are non-matriculates who have by long stay acquired some sort of skill in doing routine business. It is difficult to relegate all of them to the non-matriculate scale of the Bengal Chamber of Commerce and it would be a bad precedent to put them all in the Bengal Chamber of Commerce's matriculate scale. What I propose to do is this: I want to put the junior non-matriculate clerks in the lower grade and all matriculates in the regular grade. The non-matriculates who have put in some years of regular service and have acquired some skill will be put on the regular grade. Men from the lower grade who show promise of ability should be freely promoted to the regular grade. I lay down the following grades:—

Grade A—Rs. 110—7—152—E.B.—7—180.

Grade B—Rs. 70—[illegible]—130—E.B.—[illegible]—150.

Grade C—Rs. 60—3—90.

I do not provide for a higher grade because I do not want to compel the Company to promote less efficient or less educated people to higher grades. If the Company finds useful hands, higher salaries and increments can be granted at their discretion.

The following persons, if they are non-matriculates, shall be placed in Grade C, i.e., Rs. 60—[illegible]—90 grade:

Ardhendu Prakash Maitra.

Dwijendra Lal Ghosh.

Bhupendra Nath Ghosh.

Prodyot Kumar Roy Chowdhury.

Bhiswadev Kundal.

Keshab Chandra Sadhu.

Shib Krishna Saha.

Jagannath Dass.

Nanda Gopal Sen.

Gour Hari Sen.

Tracers and Sarcars who do not get more than Rs. 90 will also be placed in this grade.

Grade A is provided for Stenographers and Comptometer operators. The rest of the employees, whose salaries after adjustment shall not exceed Rs. 150, shall be placed in the second grade, i.e., Grade B. Persons getting

more than Rs. 150 shall be placed in Grade A. The increment of persons not in the time-scale shall be at the discretion of the employers. So far as Grades B and C are concerned, there shall be point to point adjustment of salaries, that is, the pay should be adjusted according to the years of service put in provided that salary of no person shall be reduced. So far as Grade A is concerned, the salaries of the persons shall be fixed at the next higher step. Probationers and apprentices shall get the salary of the lowest grade to which they were appointed.

Subordinate Staff.

The following are the grades for the subordinate staff:

			Salary. Rs.
Durwans	...	...	30—1—45.
Bearers and Peons	...	...	25—1—40.
Car Drivers	...	...	55.
Lorry Drivers	...	...	60.

I do not disturb the grades and the time-scales except in one case. The grade of bearers shall be Rs. 30—1—40 instead of Rs. 25—1—40. Those of the bearers who are getting less than Rs. 30 shall be put up to the figure, i.e., Rs. 30.

Point 2.—Bonus.

The Company is now giving 15 days' salary as bonus in the year. I have been assured that there is no intention to discontinue it. In view of this assurance I leave the matter outside adjudication with the recommendation that if the profits permit, attempts should be made to raise the amount of bonus to one month's salary as is the usual custom with the mercantile firms affiliated to the Bengal Chamber of Commerce.

Points 3 and 4.—Retiral Benefits and Retiring Gratuity.

I have already said about the effect of an award for the subsequent time. The Engineering Tribunal did not award any benefit for past services unless there was any rule in the Company. This is, as I have already pointed out, an irrevocable decision and it is not possible for me to interfere with it. I can only lay down a rule for future years. The Company has a Contributory Provident Fund at 8⅓ per cent. This is a little less than 10 per cent. which we have awarded for the other firms affiliated to the Bengal Chamber of Commerce. Not that we strictly stuck to 10 per cent. but substantially gave 10 per cent. In a very early award I discussed the matter and pointed out that 8⅓ per cent. was the proper percentage if we compared the retiring benefits given to the Government employees. We had, however, adopted 10 per cent. because that was the offer made by the Bengal Chamber of Commerce at an earlier date and accepted by the employees. 8⅓ per cent. cannot be considered to be anything inadequate and this firm has got many employees in the workshop who are all governed by the same Provident Fund. I therefore consider it inexpedient to alter the rate of contribution for the few employees engaged in the head office.

Points 5 and 6.—Tiffin and Medical Aid.

The demands under these heads are rejected as we have rejected these in generality of awards in the Bengal Chamber of Commerce case.

Point 7.—Working Hours and Overtime.

Working hours shall be for the clerical staff 37 hours in the week and for the subordinate staff 44 hours in the week excluding the tiffin time. The employers shall fix the hours of attendance.

Overtime shall be paid according to the rates prescribed under the Shops and Establishments Act.

Point 9.—Uniforms and Umbrellas.

These will be supplied only for official work.

Points 11 and 12.—Recognition of the Union and Works Committee.

These are not strictly industrial disputes within the meaning of the Industrial Disputes Act. They are left outside adjudication.

Point 8.—Recruitment Rules:—Recruitment, Promotion and Transfer,

Transfer means allocation of different work. The Union wants that there should not be any such transfer. We feel however that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.—(*i*) Preference should be given to retrenched employees, if qualified.

(*ii*) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the officer's grade. We award that there should be no bar to promotion from clerical grade to the officer's grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the officer's grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Point 10.—Service Conditions.

(*a*) *Probation and confirmation.*—It is awarded that the period of probation shall not exceed 6 months though confirmation may be made earlier if the candidate is found suitable.

(*b*) *Service record.*—We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(*c*) *Enquiry before punishment and dismissal, discharge and retrenchment or other punishments.*—In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment for a just cause.

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty, the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the Head of the Concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the Head of the Concern at Calcutta, an appeal shall lie likewise with the Head of the Concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the Head of the Concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(*d*) *Retiring age.*—We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

ORDER.

No. 4025Lab.—24th July 1950.—Whereas under the Government of West Bengal, Labour Department, order No. 1289Lab., dated the 18th March 1950, as amended by corrigendum No. 1802Lab., dated the 15th April 1950, the industrial dispute between San Equip, Ltd., Serampore, Hooghly, and its workmen represented by San Equip, Ltd., Mazdoor Union, 2, Netaji Avenue, Serampore, Hooghly, was referred for adjudication to Sri G. Palit, District Judge;

And whereas the said Sri G. Palit, District Judge, has submitted to the State Government his award on the said industrial dispute;

Now, therefore, in exercise of the power conferred by section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of an industrial dispute between Messrs. San Equip, Ltd., Serampore, Hooghly, and its workmen represented by San Equip, Ltd., Mazdoor Union, 2, Netaji Avenue, Serampore, Hooghly.

PRESENT:

SRI G PALIT, *District Judge, Industrial Tribunal.*

Present for the Union: Sri P. K. Sanyal, Advocate.

Present for the Company: Sri S. P. Ghosh, Advocate, instructed by Sri B. K. Ghosh, Pleader.

1. By an order No. 1289Lab., dated the 18th March 1950, the Government of West Bengal constituted a Tribunal of one member under sections 7 and 10 of the Industrial Disputes Act (Act XIV of 1947) and referred the said dispute to me for adjudication.

2. The reference was received on 22nd March 1950. The Union filed its written statement on 3rd April 1950. The Company filed its written objection on 25th April 1950. The case was taken up for final hearing on 15th June 1950 after two adjournments. When the case was opened there was a talk of compromise between the parties. A petition of compromise was eventually filed, containing the terms of the settlement.

3. The issues after amendment stand as follows:—

(1) Whether the sudden lock-out of the foundry shop was justified? If so, what compensation should be paid to the retrenched workers?

(2) If the lock-out was not justified, whether the workers would be entitled to re-instatement and/or any other compensation?

AWARD.

It is not necessary for me to go into details about the written statements filed by the parties, inasmuch as the matter was disposed of amicably by a petition of compromise filed before me. It is a case of the Union that the

Company refused to start the Provident Fund Scheme on the terms of the Engineering Tribunal's award, though directed by the Labour Commissioner. On 2nd February 1950, the Company suddenly, without notice, locked-out 27 employees of the foundry shop. At the intervention of the Labour Directorate, the lock-out was lifted on the 3rd February 1950 and the workmen were allowed to work on two succeeding days. Again on the 6th February 1950 the Company closed down the foundry department for an indefinite period. The Union contends that this lock-out was unjustified and uncalled for; as such the employees are entitled to compensation during the period of involuntary unemployment. The Company, on the other hand, contends that this lock-out was a forced measure necessitated by the fact that the stock of pig-iron was reduced to nil There was a scarcity of the supply of pig-iron for some time past. The Company managed somehow to carry on with scrap-iron. But the products, made of scrap-iron, did not find good market. The Company's finances also were tottering. The Company divided the employees into two groups just as a makeshift measure to avoid the total breakdown. But the employees forced their entrance into the factory on the 3rd and 4th February 1950 with the result that the Company had no other alternative than to close down the foundry department for an indefinite period. The Company, however, is willing to take in as many as possible of the employees when it finds its way to re-open the foundry department consequent on the supply of the quota of pig-iron.

When the case was opened by the Advocates of the parties, the talk of compromise arose. The talks resulted in a petition of compromise being filed adjusting the differences and disposing of the issues before the Tribunal. The petition of compromise is embodied in Annexure A. This will form part of the award. I, accordingly, pass an order of "no dispute" disposing of the issues in terms of the petition of compromise as per Annexure A.

G. PALIT,

District Judge, Industrial Tribunal.

The 28th June 1950.

Annexure A.

BEFORE:

SRI G. PALIT, *Tribunal appointed under the Industrial Disputes Act, 1947.*

In the matter of Messrs. San Equip, Ltd.

And

Its workmen represented by San Equip, Ltd., Mazdoor Union.

The humble petition of the Employers and Workmen named above.

MOST RESPECTFULLY SHEWETH:

That the parties have settled their dispute on the following terms, viz.:—

(*a*) that the 44 workmen of the Foundry Department retrenched shall be paid one month's wages including dearness allowance as compensation with effect from the 7th of February 1950;

(*b*) that the employers shall re-employ at least 75 per cent. of these 44 workmen according to their seniority and skilfulness as soon as they get 70 tons of pig-iron as covered by their permits Nos. SC/3699013/Pig, dated the 10th January 1950, and SC/369369/Pig, dated the 27th February 1950;

(*c*) that as soon as sufficient supply of pig-iron is received the remaining workmen shall be re-employed;

(*d*) that when re-employed the period of service put in by the said workmen up to the 6th day of March 1950 shall be taken into account;

(*e*) that in re-employing the workmen as stated above the employers shall take into account the recommendation of the Union.

Your petitioners, therefore, pray that the Tribunal may be pleased to pass an award in terms of the above settlement.

And your petitioners, as in duty bound, shall every pray.

PUBLIC NOTICE.

IMPORT TRADE CONTROL.

New Delhi, the 19th June 1950.

Subject:—Interpretation of the term date of shipment in case of imports from countries which have no port.

No. 36-ITC(P.N.)/50.—It has been decided that in the case of imports from countries like Czechoslovakia and Switzerland, which are surrounded on all sides by other countries and have no port of their own, the term "period or date of shipment" mentioned in an import licence or Open General Licence, when applying to imports from such countries shall be deemed to be the date of actual despatch of goods by railway or road transport or river boat from the country concerned to a consignee in India on through consignment.

2. "Despatch on through consignment to India" means "Despatch of goods in such circumstances that both in the intention of the consignor, and in fact, they have been despatched on the first stage of a journey to a definite consignee in India, the journey to be one accomplished without the consignment being divided, added to, repacked or unnecessarily delayed at any point *en route* to India".

3. Proof of despatch on through consignment to India should be established by documentary evidence. A through bill of lading, or a railway bill of lading and ocean bill of lading tallying in all material particulars and not disclosing any unnecessary delay at the break in the journey, will normally constitute sufficient evidence of through consignment. The Customs Authorities may, however, accept other kinds of documentary evidence of through consignment, in their discretion, and may if necessary call for the production of documents of a particular nature in that behalf if they so desire.

Subject:—Import of Domestic Sewing Machines during July-December 1950 licensing period.

No. 37-ITC(P.N.)/50.—The attention of importers is invited to the remarks against Serial No. 287 of Part IV in column 25 in Appendix "B" to Commerce Ministry's Public Notice No. 14-ITC(P.N.)/50, dated the 15th June 1950.

2. It has been decided that licences for the import from soft currency countries of domestic sewing machines, complete, should be granted to established importers on the basis of a quota of 40 per cent. of half of best year's imports. In calculating best year's imports, however, previous imports of machines of types which, prior to January 1950, would have been classed as domestic sewing machines, should alone be taken into account.

3. Similarly the licences issued under the above quota will be valid to cover only such types of sewing machines as would prior to January 1950 have been classified as domestic sewing machines.

New Delhi, the 22nd June 1950.

Subject:—Licensing of Safety Razor Blades falling under Serial No. 277 of Part IV, for July-December 1950.

No. 38-ITC(P.N.)/50.—In modification of the quota percentage of 60 per cent. indicated in Appendix "B" attached to Public Notice No. 14-ITC(P.N.)/50, dated the 15th June 1950, for the licensing of safety razor blades falling under Serial No. 277 of Part IV of the Import Trade Control Schedule, it has been decided that licences for the import of this article should be granted on the basis of a quota of 120 per cent. of half of best year's imports for the period July-December 1950.

2. It has also been decided that newcomers' applications against this item should be entertained for July-December 1950, and newcomers should accordingly submit their applications to the Chief Controller of Imports, New Delhi.

New Delhi, the 23rd June 1950.

Subject:—Inclusion of "Liberia" in the Dollar Area.

No. 39-ITC(P.N.)/50.—It has been decided that Liberia should be included under the Dollar Area mentioned in paragraph 4 of the Public Notice No. 14-ITC(P.N.)/50, dated the 15th June 1950. A fresh entry should be made under clause A of paragraph 4 of that Public Notice as follows:—

"(iv) 'Liberia'."

2. The licensing of imports from Liberia will be governed by the same principles as are applicable in the case of other countries included in the Dollar Area.

Subject:—Licensing of imports of Jute Bobbins for July-December 1950.

No. 40-ITC(P.N.)/50.—Importers of jute bobbins, falling under Serial No. 37(1) of Part II of the Import Trade Control Schedule, are informed that past imports of all kinds of jute bobbins including wooden bobbins will be taken into account in calculating the quota of 25 per cent. of half of best year's imports notified in respect of this item on page 41 of Public Notice No. 14-ITC(P.N.)/50, dated the 15th June 1950.

2. The licences issued against this quota will, as stated in the Public Notice referred to above, be valid to cover the import of metallic and plastic bobbins only. In this connection, "metallic bobbins" mean bobbins made entirely of metal.

New Delhi, the 24th June 1950.

Subject:—Licensing of Drugs, Medicines and Pharmaceutical Chemicals for July-December 1950.

No. 41-ITC(P.N.)/50.—A reference is invited to the entries in the relevant columns against Serial Nos. 87, 108, 109 and 110 of Part IV of the Import Trade Control Schedule and to Appendix "S" attached to Public Notice No. 14-ITC(P.N.)/50, dated the 15th June 1950.

2. It has now been decided, in respect of the period July-December 1950, to permit the import of certain quantities of drugs, medicines and pharmaceutical chemicals, falling under the above serial numbers, but not included in Appendix "S" to the above Public Notice. Such imports will be permitted only from the soft currency area and from Switzerland, and the manner in which they will be licensed is explained in the following paragraphs.

3. In the case of imports from the soft currency area of drugs, medicines and pharmaceutical chemicals falling under the above serial numbers of the Import Trade Control Schedule but not included in List (iii) of Appendix "S" (hereinafter referred to "non-listed items") a separate quota will be established. This quota will be based on 5 per cent. of half of best year's imports of all drugs, medicines and pharmaceutical chemicals falling under the abovementioned serial numbers of the Import Trade Control Schedule, whether included in Appendix "S" or not. The licences issued against the quota thus established will however be valid only for the import of non-listed items. This quota will be additional to the quota of 20 per cent. of half of best year's imports which has been prescribed in Public Notice No. 14-ITC(P.N.)/50, dated the 15th June 1950, for items included in List (iii)(d) contained in Appendix "S".

4. In the case of Switzerland the quota of 50 per cent. of half of best year's imports established in Public Notice No. 14-ITC(P.N.)/50, dated the 15th June 1950, for items included in list (ii) in Appendix "S" has been doubled in accordance with the provisions of Public Notice No. 33-ITC(P.N.)/50, dated the 15th June 1950, and now stands at 100 per cent. of half of best year's imports of all drugs, medicines and pharmaceutical chemicals covered by the above serial numbers of the Import Trade Control Schedule. No extra quota will be issued in respect of non-listed items in this case, but the quota will be divided into two parts. The first part will amount to 75 per cent. of the quota and licences issued against this part will be valid only for goods mentioned in List (ii) of Appendix "S". Licences issued under the remaining 25 per cent. of the quota will be valid to cover any goods classified under the above serial number of the Import Trade Control Schedule, whether included in Appendix "S" or not.

5. The opportunity of the issue of this Public Notice is taken to draw the attention of importers to an error contained in the remarks column No. 25 of Appendix "B" to Public Notice No. 14-ITC(P.N.)/50, dated the 15th June 1950, against Serial Nos. 109 and 110 of Part IV of the Import Trade Control Schedule. In the remarks concerned it is stated that "Applications should be made to the Chief Controller of Imports". This should have read "Actual users may apply to the Chief Controller of Imports". It should be explained that the intention is that established importers applying for quotas for goods falling under the serial numbers concerned should apply to the Import Trade Controllers at the ports at which they have made their previous imports, whereas actual users should apply to the Chief Controller of Imports, New Delhi. The error has been corrected in the errata published with the Ministry of Commerce notification No. 14(A)-ITC(P.N.)/50, dated the 15th June 1950.

Subject:—Licensing of spares of Motor Vehicles falling under Serial Nos. 293 to 297 of Part IV of the Import Trade Control Schedule for July-December 1950.

No. 42-ITC(P.N.)/50.—The attention of importers is invited to entries in column No. 25 against Serial Nos. 293, 295 and 297 of Part IV in Public Notice No. 14-ITC(P.N.)/50, dated the 15th June 1950, regarding licensing of these articles to actual users, *i.e.*, those owning fleet of one hundred vehicles or above.

2. It has been decided that such actual users, *i.e.*, those owning fleet of 100 vehicles or above should submit along with their applications of licences a certificate from the Transport Authorities of the States concerned certifying that they own a 100 fleet of vehicles or above, and are entitled to a licence as stated in the Public Notice.

IMPORT TRADE CONTROL.

New Delhi, the 26th June 1950.

Subject:—Modifications in present arrangements for arranging interviews in advance with officers of the Chief Controller of Imports' Office, New Delhi.

No. 43-ITC(P.N.)/50.—The following modifications have been made in the existing system for arranging interviews in advance with officers of the Chief Controller of Imports' Office, New Delhi, other than the Chief Controller of Imports himself:—

(a) Once a person has booked an interview with any particular officer for any particular day, he will not be permitted to make any further booking with the same officer, until the interview already booked has taken place;

(b) no interview will be arranged for any person with any particular officer for a date sooner than one week after the last date upon which the same person had an interview with the same officer; and

(c) in interpreting (a) and (b) above, the terms "person" or "any person" will include not only the individual person concerned, but any other representative of the particular firm or firms which that individual represents. Thus a firm may not seek to circumvent the above rules by sending a series of representatives to seek successive interviews in contravention of the spirit thereof; and

(d) nothing contained in this Public Notice shall prevent a person who desires to arrange an interview with any particular officer from handing in more than one interview slip requesting an interview with that officer on the particular day in question. If such a person wishes to discuss more than one problem with the officer concerned on the day in question, it is indeed necessary for him to hand in more than one interview slip so that arrangements may be made for tracing the papers relating to each problem.

2. If it is found that any person or firm has sought to contravene the provisions of this Public Notice, such person, and any representatives of such firm, may be debarred from seeking further interviews with officers of the Chief Controller of Imports' Office.

ANNEXURE.

In the matter of an Industrial Dispute between the Howrah Municipality, Howrah, and its workmen and employees represented by (1) Howrah Municipal Employees' Association, Howrah Municipal Office, Howrah, (2) Howrah Jalkal Karmachari Sangha, post office Serampore, Hooghly, and (3) Howrah Municipal Karmachari Sangha, Municipal Office, Howrah.

PRESENT: SRI P. R. MUKHERJEE,
Chairman, Industrial Tribunal.

For the municipality—Rai Bahadur D. N. Basu, Advocate and Sri Jitendrya Bonerjee, Secretary, Howrah Municipality and Sri Lalit Mohan Roy, Law Officer, Howrah Municipality.

For the Howrah Municipal Employees' Association—Sri M. M. Sen, Barrister-at-Law, and Sri Sib Nath Banerjee.

For the Howrah Jalkal Karmachari Sangha—Sri M. M. Sen, Barrister-at-Law.

For the Howrah Municipal Karmachari Sangha—Sri Bijayananda Bhattacherjee.

AWARD.

By Government of West Bengal, Labour Department, order No. 5544-Lab., dated the 7th November 1949, the above dispute had been referred to me for adjudication under sections 7 and 10 of the Industrial Disputes Act, 1947 (Act XIV of 1947).

In this case, three sets of Unions representing different categories of municipal employees of the Howrah Municipality have preferred claim in their written statement for revision of pay, wages, dearness allowance, etc. The case of the Howrah Municipal Employees' Association (which consists almost exclusively of the conservancy menials) is that they want a thorough revision of the scale of pay, dearness allowance, etc. In a word the demands made by them before Mr. S. N. Modak have been almost fully reiterated before me. The statement of the Howrah Municipal Karmachari Sangha shows that the Municipality had been pleased to accept substantially their charter of demands and that the same had been given effect to from the 1st of October. The Municipality had thus purchased truce by accepting the terms of this Karmachari Sangha and the Sangha had also agreed not to make any further demand for three years regarding pay, grade, provident fund, etc. Only point that has been urged by the Sangha is that they may be allowed the benefit of the increase of dearness allowance on the scale awarded to other members of the Unions before the Tribunal.

Howrah Jalkal Karmachari Sangha has also come with a new list of demands seeking revision of wage structure, dearness allowance, house allowance, gratuity, etc.

The Municipality has separately replied to the demands made by the Unions and the case of the Municipality in a nutshell is that it is at present financially much handicapped and that the demands of these Unions were fully considered by the two previous Tribunals—one presided over by Mr. N. C. Chakravarty and the other by Mr. S. N. Modak on 25th September 1947 and 23rd March 1948, respectively. The Municipality states that Mr. Modak's award involved a cost of about Rs. 6,00,000 towards the payment of basic pay and dearness allowance alone and a further sum of about Rs. 4,00,000 to provide for provident funds, benefits, leave facilities, etc.

The municipality firmly affirms that the conservancy menials should not receive any more consideration as their emoluments have been increased more than the rise of cost of living index figure since the war. The Municipality further avers that the scope of augmenting municipal revenue is very limited and that the Municipality has already increased the consolidated rates almost to maximum allowed under the law.

The reply of the Municipality to the statements of the Howrah Jalkal Karmachari Sangha is that their demands had been previously well considered by the award previously made by Mr. N. C. Chakravarty on 25th September 1947. The Municipality is financially too poor to bear any extra burden.

Regarding Howrah Municipal Karmachari Sangha, the Municipality states that the demands of the Howrah Municipal Karmachari Sangha have been settled to their satisfaction on a settlement arrived at by the Municipality and the employees on condition that they would not come forward with any more demand in any shape or form during the next three years. These employees therefore cannot reopen the question. The generous benefits in the said settlement fully compensate the meagreness of dearness allowance granted in the case of the employees.

Issues.

(1) Is there any special circumstance justifying revision of the last award of Sri Modak regarding revision of scale of basic pay?

(2) Changes in the scales of pay and removal of alleged anomalies in some grades as a result of last award. Is there any revision of pay called for?

(3) Increase in dearness allowance, if any. Are the members of the Howrah Municipal Employees' Association entitled to dearness allowance? Are the members of Jalkal Karmachari Sangha entitled to any dearness allowance? Can Howrah Municipal Karmachari Sangha claim any dearness allowance in view of the settlement arrived at with Union on 12th September 1949?

(4) Sanitary quarters.

(5) Fixing of the retiring age of municipal employees at 60 years.

(6) Holiday allowance for those employees who discharge duties on Sundays and holidays.

(7) Medical aid—special medical leave if can be granted to conservancy employees?

(8) Gratuity.

(9) Pay for strike period.

(10) Reinstatement of Prasadi and Manasadas Dey, Jagrup, Choti and Mongro No. 2.

(11) Revision of leave facilities.

(12) Increase in the rate of provident fund deduction.

(13) Extension of privileges of the last award in the case of drivers and clerks of Howrah Water Works at Serampore.

(14) Enforcement of Menials' Provident Fund Rules.

(15) Are employees mentioned in demand No. 13 of the Jalkal Karmachari Sangha at all entitled to extra allowance as claimed?

(16) Uniforms for employees of Water Works other than those who are already entitled to.

(17) Will there be a separate award for Howrah Municipal Karmachari Sangha in terms of settlement made on 12th September 1949?

(18) Are employees of the Howrah Municipal Employees' Association entitled to have the benefits claimed with retrospective effect from 1st November 1948?

(19) Whether appointments, dismissals, transfers and punishments to be made in consultation with the Unions concerned?

Issue No. 1.—Is there any special circumstance justifying the revision of the last award of Sri Modak regarding revision of scale of basic pay?

Admittedly there had been two adjudications regarding dispute of the employees in this Municipality by two of my learned colleagues, Mr. S. N. Modak and Mr. N. C. Chakravarty. The latter adjudicated the dispute of the Howrah Jalkal Karmachari Sangha and Mr. Modak considered the demands put forward by the Howrah Municipal Employees' Association.

The charter of demands presented before both of these adjudicators has been not only identical before this Tribunal but in respect of some items the demand runs higher still. On reading the awards of Mr. Modak and Mr. Chakravarty, it is clear that they duly considered the grievances of the workers and made substantial recommendations for improvement in the scale of pay, etc. It is curious that just after the expiry of six months, a new agitation has been set out and fresh demands made. The question naturally arises if a party is entitled to come before the Tribunal and seek general revision of the entire award after the expiry of the term. On this point, there is of course no statutory bar. But ordinarily the latter adjudicator will be reluctant to sit in judgment over the award of the previous adjudicator, unless there are special reasons and circumstances shown which justify revision of the award. Hon'ble Justice Mr. Divatia and Mr. Jeegibhoy in many cases laid down very salutory rules of prudence and equity. They held that an award once made should not ordinarily be reopened unless very strong and exceptional reasons are put forward by the parties who seek a revision thereof. There must be a finality in litigation. The concept of finality in litigation is as ancient as the legal system. If there be no finality in litigation, the litigant will go on litigating with the change of time for a better chance with the change in judges or change in mentality of the judges. No country with any organised system of administration of justice will ever tolerate it. What is true in civil litigation must be true in labour dispute. This is the maxim of judicial prudence which must under no circumstance be underestimated. The Union have lamentably failed to put forward before me any such special circumstance justifying revision of the last awards. I, therefore, am not at all convinced that the last award need any more revision.

There is another angle from which the question of revision of the award is to be considered. It is the financial position of the Municipality concerned that is to be surveyed before I throw any extra burden on its exchequer.

In case of municipalities or other institutions, where the revenues are rigid, the task of the adjudicator is primarily to prepare a budget in terms of the income. Any theoretical consideration about the caloric values of food items or standard of living must remain in the background. In case of a State adjusting its expenditure to an optimistic calculation of the revenue is sure to lead into bankruptcy. This is not a new idea in the field of adjudications. My another colleague Sri S. C. Chakravarty in his adjudication in relation to the Midnapore Zemindary Company illustrated this aspect of the matter. It would be a dangerous practice and a precedent to adjust an inflated expenditure if I make pious recommendation on behalf of the Municipality for augmenting its finances with a conscience that my recommendations are too feeble and the sources are already overtaxed. I must shun away from that perilous scheme.

Under the Municipal Act, the maximum amount of tax which can be recovered is 23 per cent. The Municipality has almost reached its last stage. Finance now cannot be increased except by legislative changes, which means whether the will of the people will think that the finance should be augmented for the purpose of better emoluments of the employees. The average national dividend is the income of the rate-payers. How can they be asked to submit to scheme where the employees should get much in advance of the national dividend? A correct procedure is to raise the national income and along with it the wages will increase. This is the fundamental idea of the direction given in the Constitution of India which

provides for payment of living wages and that by augmenting the national income to raise the standard of living. The standard of living of a certain class of employees cannot be artificially raised to the detriment of the masses.

Now I come to the actual facts and figures, and I would now refer to two important letters of Mr. R. A. Stracey, I.C.S., District Magistrate, Howrah, who fully surveyed the financial position 2/3 years back. In paragraph 14 of the first letter, Mr. Stracey observes: "The Municipality's finances are in the last stage of collapse and it is doubtful if they will be able to fulfil day to day commitments.....In the result I recommend a subvention of Rs. 2,58,601 and a ways and means advance of Rs. 2,50,000 (or a ways and means advance of Rs. 5,08,601) (say Rs. 5 lakhs) if a subvention is quite out of the question." (The Government further granted only a fraction of the abovementioned Rs. 5 lakhs and odd and that also as a loan bearing interest of 3 per cent.)

In the second letter Mr. Stracey observes: "The crux of the problem is to provide the Municipality with sufficient income to meet its annual expenses for the purposes of statutory duties and to provide a fund for improvement of various civic amenities. While the income of the Municipality has remained more or less static over the last few years, the establishment charges have greatly increased on account of the general fall of value in money since the war."

The report of Mr. Stracey gives a lurid picture of the financial condition of the Municipality. Things have been continuing same as before and have not at all improved. On the other hand the following table will show that there has been heavy increase in establishment charges which have risen by leaps and bounds since the commencement of the last great world war:—

			Rs.
1941-42	...	...	9,21,000
1942-43	...	...	9,34,000
1943-44	...	...	11,63,000
1944-45	...	...	12,87,000
1945-46	...	...	16,26,200
1946-47	...	...	17,48,600
1947-48	...	...	20,67,588

Besides establishment expenses, the annual minimum indispensable essential expenditure to run the municipal administration under heads of Petrol, Coal, Fodder, Telephone, Electric Consumption for Street Lighting, Conservancy Stores, Disinfectants, Medicines, Stationery and Printing, Law Charges, Sinking Fund and Repayment of Loans would amount to Rs. 8,00,000 approximately annually. If to this sum is added establishment expenses amounting to Rs. 32,73,000 annually, the Municipality will need yearly Rs. 40,00,000 for its minimum expenses. This does not include expenditure on various other civic amenities such as maintenance of roads and drains, expansion of primary education and increased facilities for public health and medical relief, amounting to nearly Rs. 20 lakhs. As against this, the income of the Municipality from the rates which this Board has raised almost to the maximum limit allowable by law, viz., 22 per cent.

of annual value is Rs. 23,25,000 and Rs. 1,50,000 (*i.e.*, from license and professional taxes) and Rs. 6,00,000 as subvention from Government aggregating Rs. 30,75,000. There will, therefore, be a deficit every year in running the Municipality to the extent of Rs. 10,00,000 and this situation has been created only because of a very big sudden jump in establishment expenditure alone, amounting to Rs. 17 lakhs annually over 1944-45 figure which is beyond the capacity of the Municipality to meet as its sources of increasing its revenue correspondingly are limited by law and are inelastic. Besides, the Municipality has to meet contractors' liability which to-day amounts to nearly 11 lakhs of rupees. The only sources of revenue available to the Municipality are rates on valuation of holdings and professional and trade taxes as per sanctioned schedule. This Municipality during one year of its life has adopted a stringent and rigid assessment policy, and raised valuation to an average varying from 60 to 80 per cent. almost to the limit of taxable capacity of its overwhelming number of middle class rate-payers.

From the above it will be seen that the problem of municipal administration has reached an extremely critical stage.

At the time when the case was being adjudicated before Mr. Modak, the financial position of the Municipality was thoroughly surveyed and he came to the conclusion "I have carefully gone into this question in a somewhat detailed manner, and I have got the impression that the Howrah Municipality is at present facing a financial crisis, and the situation is positively alarming. I have examined the statements of actual receipts and expenditure for the twelve months of the financial year 1946-47, and also for the nine months from April to December 1947. I have also gone into the Budget Estimates for the years concerned. In spite of a subvention of 6 lakhs of rupees granted by the Government and an advance of Rs. 1,41,000 made by the Government the position is that at the best the income and the expenditure on the existing scale of wages and allowances are just balanced, and yet several bills of contractors still remain to be paid".

It is unfortunate that after Mr. Modak had found that the financial position of the Municipality was on the last leg and almost to a breaking point, he nevertheless increased the salaries and dearness allowance of the conservancy menials which entailed a really tragic consequence on the Municipality and its finance. Of course he was guided by a pious anticipation that relief would be coming from the Government by way of subvention, but the unexpected miracle did not come out to be true. The Municipality had to incur a cost of about Rs. 6,00,000 towards the implementation of Mr. Modak's award under the head of basic pay and dearness allowance alone and a further sum of about Rs. 4,00,000 to provide for provident fund benefits and leave facilities to the conservancy and other menials.

I do not like to further go into details of the other figures submitted by the Howrah Municipality, but I am quite satisfied beyond any reasonable doubt that the Municipality is in a critical financial position and any further increase will surely prove the last straw on the camel's back. I, therefore, refrain from making any other burden on the finance of the Municipality.

Issues Nos. 2 and 3.—Changes in the scales of pay and removal of alleged anomalies in some grades as a result of last award. Is there any revision of pay called for? Increase in dearness allowance, if any. Are the members of the Howrah Municipal Employees' Association entitled to dearness allowance? Are the members of the Jalkal Karmachari Sangha entitled to any dearness allowance? Can Howrah Municipal Karmachari Sangha claim any dearness allowance in view of the settlement arrived at with Union on 12th September 1949?

Any change by way of increase of pay and dearness allowance cannot be made in view of the financial position of the Municipality. The next point for consideration whether any such change is called for? I have carefully gone through the award of Mr. Modak as also of Mr. N. C. Chakravarty and I find that after a careful consideration, the pay structure was very carefully revised to the benefit of the workers by the award of Mr. Modak. The conservancy menials were most handsomely benefited by the above award as they are getting now Rs. 32-8 as basic pay (grade being Rs. 30—As. 8—Rs. 35) and Rs. 20 as dearness allowance as against Rs. 11 which was then total remuneration in September 1939. I am inclined to hold that their pay has been handsomely increased by the award of Mr. Modak and the present pay they are getting is not only a living wage but a fair wage. The family unit of sweeper class as a whole is comparatively much smaller than middle class employees and each one of the members of small units is an earning member unlike their less fortunate brethren of the same Municipality. The conservancy menials including many women sweepers put in only 5 hours' work in the Municipality. It was freely admitted by a number of sweepers examined before me that almost all of them including women workers did put in extra work in other establishments, *e.g.* Howrah Jute Mill, Ganges Rope Works, cinemas, etc., and private houses. They thus amply and regularly supplement the remuneration they receive from the Municipality. It is also clear that the conservancy menials can in no sense be regarded as whole-time workers under the Municipality like other workers in a jute mill or a cotton mill.

The conservancy menials used to get Rs. 11 per month in 1939 September as his total remuneration when the cost of living index figure was 100. They are now drawing Rs. 52-8 per month. The cost of living index now varies from 367 to 370 and it would appear that the present income of the conservancy menials is nearly five times than what it was in 1939. So they are now getting more than what they are entitled to on economic basis, apart from the question that they liberally supplement this income from the Municipality by working in other establishments and private houses regularly. The recommendation of the Fair Wage Committee is that the increase in the cost of living of the lowest grade workers should be neutralised cent. per cent., but here we find that to neutralise the difference, total emolument of Rs. 38 or Rs. 39 per month would have been quite sufficient. So what the conservancy menials are getting is not only a living wage but quite a handsome wage. So I do not think the wages of conservancy menials require any further revision.

There are three sets of Unions representing different workers in this Municipality, *i.e.*, Howrah Municipal Employees' Association consisting mostly of the conservancy menials with only a few not exceeding 4

or 5 of other employees of the Municipality as members, Howrah Municipal Karmachari Sangha represents almost all the members of the clerical staff and menials other than conservancy menials and Howrah Jalkal Karmachari Sangha represents workers of the Water Works Department of the Municipality. I shall take up the cases of the separate Unions separately.

Regarding claims put forward by the Howrah Municipal Employees' Association, their case does not require any consideration in view of my previous findings. Moreover the Employees' Association seems to have championed the cause of clerical staff but it has no right to represent the clerical section as the same is represented by the Karmachari Sangha.

Regarding Jalkal Karmachari Sangha, the award of Mr. N. C. Chakravarty stands, but I however only like to award a graded scale in the case of unskilled workers as follows: Rs. 30—1—35.

Regarding the claims put forward by the Howrah Municipal Karmachari Sangha, I may point out that this Karmachari Sangha, had entered into an agreement with the Municipality on 12th September 1949. By the terms of settlement, more generous grades and special increments have been allowed to the municipal employees and the Municipality went beyond the generous offer of Mr. Modak, and incurred a heavy expenditure to purchase peace with the employees, who agreed not to agitate for further increment or embarrass the Municipality by a fresh demand for a period of three years. These terms have been accepted unreservedly by the Chairman of the Karmachari Sangha. This Sangha nevertheless pray that the dearness allowance if increased for the other sets of workers by the Tribunal may also be extended to them. In my opinion the Karmachari Sangha must be estopped from making any further demand regarding dearness allowance or going back upon their own agreement. Moreover I am not going to make any increase in dearness allowance for other classes of employees, so the question of extending the privileges does not arise any more.

The Municipality was and is always prepared to extend the same terms as granted to the Karmachari Sangha to the other employees provided they agree to sign the bond of peace for three years. It is open to other Unions to accept the terms which is being extended to the Municipality even now on condition that they would not agitate for further increase in pay, etc., for three years.

It is urged that the so-called agreement with the Karmachari Sangha is an unfair labour practice showing partiality to a set of workers. For it is the principle of collective bargaining that both parties may offer terms, it is open for both the parties to accept or reject the same. The Municipality imposed a heavy liability on itself in order to avoid embarrassment of fresh demands every year by the Unions. In this way they purchased peace and workers also were amply benefited for just before the expiry of the terms of the award by Mr. Modak they got handsome increase regarding grades and some special increments. I see nothing unfair or wrong in the agreement and I make an award ratifying the terms of settlement made by the Municipality with the Karmachari Sangha and make an award in terms of settlement in favour of Karmachari Sangha and it must be binding on them. The relevant terms of settlement are contained in Appendices A and B which will form a part of the award.

Regarding the other two Unions, I direct that they may get benefit of the extended terms offered in the above settlement with Karmachari Sangha by agreeing to the conditions imposed by the Municipality, so far as these terms might be applicable to any class or classes of employees.

Lastly, I hold that it is the primary duty of the Municipality to give sufficient amenities to its rate-payers, but if its finances are mostly used for maintaining establishments, the rate-payers necessarily have a cause of grievances against the Municipality which is maintained solely by the tax paid from their hard earned money. After these observations I am sorry, I cannot make any further changes in the scales of pay as demanded nor can I allow any further increase in dearness allowance. Regarding removal of the anomalies of the last award, no argument had been put forward before me. I do not think there was really any such anomaly, calling for my interference.

Issue No. 4.—Sanitary quarters.

The Union demanded house rent allowance for all workers and other employees, or sanitary quarters. It is also demanded that the existing quarters which are maintained in various places such as Sibpur Camp and Serampore Water Works are in a dilapidated condition and they should immediately be repaired and made habitable. Considering the financial position of the Municipality, this demand which is likely to involve a cost of Rs. 5,00,000 cannot be conceded.

The Municipality alleges that the quarters at Sibpur Camp belong to the Government who temporarily allowed the menials to be housed there during the communal disturbances, and the Government may demand back possession and hence the question of repairing does not arise. It is reported that action has already been taken to repair the Serampore quarters. This should be expedited.

Issue No. 5.—Fixing of the retiring age of municipal employees at 60 years.

The Pay Commission's recommendation regarding retiring age has not been accepted by the Government and the Government has informed the Municipality that the retiring age cannot be raised as the Government servants do not enjoy the benefit. This Municipality, however, has been pleased to pass a resolution by which the extension of services beyond the 55th year can be claimed only till the 58th year on the certificate of fitness as provided under the existing rules. This privilege is to continue.

Issue No. 6.—Holiday allowance for those employees who discharge duties on Sundays and holidays.

The Union demands some system of holiday allowance for conservancy menials and urged that the conservancy menials and many such other essential servants of the Municipality cannot enjoy any holiday even on Sundays, Durga Puja and other festivals and urged that they should be given overtime allowance.

This means a huge cost and the Municipality would be unable to bear this. Only recently the conservancy menials have been allowed 15 days' leave with pay against the accepted conditions of services of "no work, no pay". The conservancy menials according to their service conditions are expected to work on holidays. The prayer is rejected.

Issue No. 7.—Medical aid—Special medical leave if can be granted to conservancy employees

Regarding medical aid, the Municipality states that the employees are entitled to get them treated in the different charitable dispensaries of the Municipality and they are as a rule recommended admission to Government and other hospitals where the Municipality makes regular grants. The Municipality also makes arrangement to give the employees preference in two beds at the Jadavpore T. B. Hospital. The existing arrangement is quite satisfactory and is to continue. I do not want to make any further direction.

Issue No. 8.—Gratuity.

The Union claims gratuity and urges that in case where it is difficult to compute the period of services, the employees may be granted a gratuity at a flat rate of not less than Rs. 500. There is a system of gratuity prevalent in this Municipality, but difficulties are experienced regarding computation of their services. The Municipality has already passed a resolution to get the cases enquired into by the Ward Commissioners. The Municipality is directed to open proper records of services of all classes of employees, so that there may not be difficulty in computing the period.

Issue No. 9.—Pay for strike period.

This was not pressed during the hearing, though the Union in the written statement alleges that this was a legal strike. I find that there was no proper notice for the strike, nevertheless the employees went on strike for some five days. The strike being illegal, no pay of this period can be allowed.

Issue No. 10.—Reinstatement of Prasadi, Jagrup, Chotai and Mongro No. 2.

Regarding last named three persons, viz., Jagrup, Chotai and Mongro No. 2, I find that the action taken by the Municipality was entirely proper and correct. These three coolies who are coal trimmers, were suspended by the Chairman on 9th September 1949 as they had flouted authority and had refused to supply coal to the new hands engaged by the authorities for meeting the emergency of a threatened strike. Of the abovenamed persons, Chotai and Mongro were temporary hands and their suspension for the offence committed by them would call for no comments. Jagrup flouted the authority of the order of the Chairman regarding suspension and continued to work as a coal trimmer for some weeks and eventually ceased to work. The Chairman was liberal enough to ask him to give an undertaking of good behaviour, but this was not furnished by Jagrup and he has since left the place. It is curious that Jagrup has not at all been examined before the Tribunal. Prayer for reinstatement is rejected.

Regarding Prasadi, I find that he along with 4 or 5 others threatened with violence, some loyal conservancy menials on 3rd August 1949, in case they fail to join the strike of which a notice had been given. The conservancy menials so threatened, viz., Nirua (O.P.W. 1) and Emrid (O.P.W. 2) and others made complaints to Block Sardar Mohammad Jalil, municipal witness No. 4 and the latter made a complaint to the conservancy Overseer, Nandadulal Sarker, municipal witness No. 5. The Chairman on getting the report suspended him. A substitute named Bhatua, municipal witness No. 3, had been appointed in place of Prasadi after suspension. Prasadi, it has been proved, snatched away the broom-stick

with which Bhatua had been working. The Health Officer thereupon made an enquiry and recommended dismissal of Prasadi for highly indisciplinary act. He was given a charge sheet and opportunity to explain his conduct. Thereafter the Chairman dismissed Prasadi apparently because his explanation was not at all satisfactory. I think he has been rightly dismissed. I find that other offending sweepers who had threatened the loyal workers with violence like Prasadi had been reinstated by the Chairman on their making an apology and submitted an undertaking for continuing good conduct. Prasadi could have also adopted this course. Prayer for reinstatement is, therefore, rejected.

Reinstatement of Sri Manasadas Dey, a clerk in the Collection Department of the Howrah Municipality.

This gentleman happens to be the present Vice-Chairman of the Employees' Association and was connected with the Association for a long time, once being the Secretary and previous to that as Assistant Secretary. The Union's case is that he has been dismissed for his Union activity; while the Municipality's case is that this gentleman misconducted himself deplorably on several occasions and had really been a veritable thorn to the Municipal authorities.

It is not at all disputed that the Industrial Tribunal can reinstate a discharged worker and that the Tribunals can order a reinstatement if the dismissed employee had succeeded in establishing beyond reasonable doubt that his dismissal was a case of victimisation or the result of unfair labour practice on the part of the employer for trade union activities of the particular employee.

The conduct of this clerk had been a matter of grave concern and anxiety on the part of the municipal administration for a long time past and I find that he had off and on severely misconducted himself by flouting the authorities. The Chairman had to suspend him on 14th July 1948 and wanted an explanation as to why disciplinary action should not be taken against him for the following charges:—

(1) For getting municipal conservancy fees of Wards Nos. 3 and 4 to lodge complaint against the Commissioners at his direct intervention without any reference for guidance from superior head of the administration.

(2) For getting illiterate conservancy workers of Wards Nos. 3 and 4 and affixing their signatures to a document in English without explaining to them the meaning and purpose thereof.

(3) For getting the signatures by way of thumb-impression to a document by illiterate conservancy employees of Wards Nos. 3 and 4 which contains statements which were denied by the signatories and which contains admittedly false statements so far as signatories are concerned.

(4) For demanding money from conservancy employees of Ward No. 4 under threat of dismissal.

Manasa Babu had to explain the charges and at that time his case was taken up by the Employees' Association which passed a resolution that he might be dealt with sympathetically as an error of judgment had been committed by him. The Chairman was requested to withdraw the order of suspension and the Union expressed hope that such instance would not recur in future. The Chairman thereupon demanded an undertaking from Manasa Babu for good behaviour in future and loyalty to the administration.

On 27th July 1948 Manasa Babu gave a written assurance to that effect, whereupon this suspension order had been cancelled on condition of loyalty and good behaviour and he was transferred from the post of Conservancy Overseer of Ward No. 1 to an indoor clerk in the Collection Department.

It is thus clear that virtually the charges were admitted and he was dealt with leniently on probation of good conduct. He could have been at that time dismissed as the charges were serious and grave but the Chairman showed leniency on the representation of the Employees' Association as also on his due undertaking to behave properly in future.

It is stated that after his transfer to the new department complaint started in coming from alleged signatories of Ward No. 1 desiring his (Manasa Babu's) retransfer to the Ward as Conservancy Overseer. One of such complaints was investigated by the Health Officer and it was found that all the signatories were fictitious signatures and all the gentlemen who had been shown as signatories denied that they had made such requests for Manasa Babu's retransfer to Ward No. 1. It is easy to presume that this was manipulated by Manasa Babu.

He addressed a letter on the 19th April 1949 in connection with the retirement and extension of one Purna Chandra Chatterjee in which he observed "Commissioners have adopted a back-door method of extension regarding reappointment after retirement". In another letter on 21st May 1949 addressed to the Secretary of the Municipality he observed: "It is unfortunate that I am to teach the duties and function of the Secretary of an organised organisation to the learned Chairman". Then in another letter he writes "I also point out that the Chairman has got the limited knowledge about the fundamental rights of the Employees' Association. It is unfortunate that when a Chairman commits an injustice and whenever the Association points it out and protests, the Chairman always tries to search the scope of the Association instead of searching his own heart."

The defence of Manasa Babu is that as an office-bearer of the Union he is entitled to write such letters. In my opinion these letters are insulting and insinuating. He forgot that he was a municipal employee and had given an underaking of good behaviour and loyalty to the administration. These letters go beyond the limit of decency and will not protect him on the plea that he was writing this letter in his capacity of an executive office bearer of the Union. These letters even if these had been written by one outsider would have been open to serious objections. He takes shelter under the cover of an office bearer of the Union and deliberately indulged in delight by insulting authorities.

Then on 15th November 1948, the Health Officer made the following complaints against Manasa Babu: "The room in which disinfected articles stored have been forcibly taken possession of by breaking open the lock and key". This misconduct has been proved before me by ample evidence. It is admitted that the room in which these disinfections had been stored is now being used as an office room of the Union, and Manasa Babu admits that the room was so taken possession of by him. But he pleads that there was order of the Chairman. But no such order of the Chairman was produced and the Municipality stoutly denied that there had been any such order.

It is next found that in June or July 1949 he incited the privy-cleaners to refuse to do the work of the absentees though it was within the duty

hours and thus fomented dissatisfaction and indiscipline amongst the municipal employees. This is proved before me by the evidence of Conservancy Overseer D. N. Kar as also by the evidence of D. N. Mukherjee, Conservancy Superintendent.

The next charge relates to the complaint on 26th November 1948 by the Collector to the effect "I am receiving complaints that Manasa Babu does not remain in the office during the greater part of working hours". This charge is brought home to Manasa Babu by the evidence of the Collector of Municipality Sri A. N. Roy. It is significant that the abovenamed neglect of duty with the resultant accumulation of arrears took place after the undertaking referred to had been given by Manasa Babu before his reinstatement. Next he criticised the resolution of the Commissioners as based on untruth. "The Chairman caused an enquiry into the matter in the presence of Manasa Babu who was given an opportunity of cross-examining the deponents and it was found that the statement made in the resolution was absolutely true. The next charge brought against him that he fomented an illegal strike (I have already found that this strike was illegal). Manasa Babu absented himself from his work without leave and incited the conservancy menials to continue the illegal strike which lasted for five days to the indescribable hardship at the residence of Howrah. He sought leave on plea of illness but was found addressing meetings and touring in jeep car. This is admitted by him that although he was absenting from office on ground of illness, he attended at least three strike meetings. This application for leave on medical ground was, therefore, found false. Manasa Babu had severely misconducted himself previously and would have been dismissed but for his undertaking to continue in good behaviour to the municipal administration. But the series of events show that he continued in his old activity and had indulged in insulting and insolent behaviour towards the authorities. His conduct was so much resented by the Municipal Commissioners that one Kalabaran Babu, a Municipal Commissioner, actively brought a resolution in the Municipality to the effect that the Chairman be requested to submit a full report regarding Manasa Babu as his conduct is detrimental to the municipal administration.

The Chairman accordingly submitted a report after due and proper enquiry and from what I have already stated it is clear that some of the charges were also proved before me. Taking all the facts into consideration I hold that his dismissal was entirely justified and that the Tribunal would not be warranted in ordering reinstatement of such an employee in any event for the simple reason that his reinstatement will prove much embarrassing to the authorities concerned, and will instil indiscipline amongst the workers of the Municipality. Considering the whole matter with anxious consideration, I am of opinion that he had been rightly dismissed. The leniency previously shown by the Chairman was misplaced and the Chairman rather watched his career too long until it perturbed the Commissioners, when one of them asked the Chairman to fully investigate the matter and to take steps against such an insolent employee. The Chairman framed charges which were found to be true after full investigation and the Chairman had no other option than to dismiss him and the Municipal Commissioners having accepted the same. I see no reason to interfere.

Issue No. 11—Revision of leave facilities.

The Union demanded one month's special leave for menials and fifteen days' casual leave to all categories of employees besides medical leave. I find that in the award of Mr. Modak, the menials other than the conservancy menials have been allowed twenty days' privilege leave in one year with

provision for accumulation up to sixty days. They are also entitled to fifteen days' casual leave. Regarding medical leave, the menials already enjoy this. No further facility than what had been granted by the award of Mr. Modak and Mr. N. Chakravarty can be granted.

Issue No. 12—Increase in the rate of provident fund deduction.

This demand is made by the Jalkal Karmachari Sangha and they claim that the rates of provident fund deduction and contribution shall be 8½ per cent. instead of 6¼ per cent. at the present. The rate of provident fund deduction has been already raised to 8½ per cent. by an agreement with the Karmachari Sangha on condition that they would not make any further agitation for increase of pay for three years and it is yet open to the Jalkal Karmachari Sangha at Howrah Municipal Employees' Association to accept the terms. The rate of existing contribution is quite fair and proper and needs no revision.

Issue No. 13—Extension of privileges of the last award in the case of drivers and clerks of Howrah Water Works at Serampore.

It is claimed that all employees who are left out of the consideration by the award of the Tribunal published on October 1947, should be granted two immediate increments to make up for loss they have sustained. It is open to the employees represented by the Jalkal Karmachari Sangha to accept the terms of settlement with Municipal Karmachari Sangha as embodied in the schedule on undertaking demanded by the Municipality. The prayer otherwise stands rejected.

Issue No. 14—Enforcement of Menials Provident Fund Rules.

Not pressed.

Issue No. 15—Are employees mentioned in demand No. 13 of the Jalkal Karmachari Sangha at all entitled to extra allowance as claimed?

It is claimed by the Union that all employees who work continuously, *e.g.*, coolie sardars, store durwans, firemen and others, should be granted extra pay and allowance for continuous duties. The said allowance should not be less than Rs. 20 per month for each worker.

I find that these employees have to do their duties according to terms of appointment and conditions of service. The duties of store durwans and coolie sardars are extended over only 8 hours a day and they have not to perform continuous duties as alleged. The firemen work under cycle shifts as required under Factories Act. The question of extra remuneration, therefore, does not arise.

Issue No. 16—Uniforms for employees of Water Works other than those who are already entitled to them.

This demand is made by Jalkal Karmachari Sangha. Liveries are as a rule allowed only to outdoor workers including those of Water Works and they cannot be allowed to the indoor staff of the Water Works and such concession to a particular section of the employees will induce similar demand being made by other indoor staff. Moreover the financial position will not allow any further burden on the Municipality.

Issue No. 17—Will there be a separate award for Howrah Municipal Karmachari Sangha in terms of settlement made on 12th September 1949?

I have already stated that the terms of settlement with the Howrah Municipal Karmachari Sangha are quite fair and legal and that the Municipality did nothing wrong in purchasing peace with the employees by extending generous terms. The Municipality made no distinction but invited the other employees to accept the condition that they would not agitate for more pay and dearness allowance for three years. It is yet open for the employees concerned to accept the offer of the Municipality. There had been no response except by the Howrah Municipal Karmachari Sangha which accepted the terms of the Municipality *in toto*. Therefore a separate award for the Howrah Municipal Karmachari Sangha will be made and it has been so awarded in the earlier part of the award.

Issue No. 18—Are employees of the Howrah Municipal Employees' Association entitled to have the benefits claimed with retrospective effect from 1st November 1948?

As no benefit has been awarded to the employees of the Howrah Municipal Employees' Association, no question of the effect of the award being given with retrospective effect can arise.

Issue No. 19—Whether appointments, dismissals, transfers and punishments to be made in consultation with the Unions concerned?

The demand cannot be entertained inasmuch as these will put a serious handicap to the whole administration with the authorities. The Unions may make usual recommendations from time to time but the municipal authorities will be free to exercise their discretion judiciously and it is hoped that the recommendations may be sympathetically considered.

P. R. MUKHERJEE,

Judge, Industrial Tribunal

The 28th June 1950.

By order of the Governor,

D. S. P. MUKHERJEE,

Jt. Secy. to the Govt. of West Bengal.

ORDER.

No. 4093Lab.—27th July 1950.—Whereas under the Government of West Bengal, Labour Department, order No. 2311Lab., dated the 9th May 1950, the industrial dispute between Messrs. Walford Transport, Limited, 71, Park Street, Calcutta-16, and their employees represented by Association of Employees' Unions, Commercial Buildings, Block No. 3, 2nd floor, 23, Netaji Subhas Road, Calcutta, in connection with the case of Ram Sukul Singh, was referred for adjudication to Sri S. C. Chakravarty, District Judge;

And whereas the said Sri S. C. Chakravarty, District Judge, has submitted to the State Government his award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of an industrial dispute between Messrs. Walford Transport, Limited, 71, Park Street, Calcutta, and their employees represented by the Association of Employees' Unions, Commercial Buildings, Block No. 3, 2nd floor, 23, Netaji Subhas Road, Calcutta.

PRESENT: SRI S. C. CHAKRAVARTY,
Chairman, Industrial Tribunal.

For the Company: Sri S. C. Sen, Advocate and Sri N. M. Das Gupta, Pleader.

For the Union: Sri Jiten Banerjee, Joint Secretary of the Union.

Acting under the provisions of sections 7 and 10 of the Industrial Disputes Act, Government of West Bengal by an order No. 2311Lab., dated the 9th May 1950, constituted an Industrial Tribunal with me to adjudicate on the dispute between Messrs. Walford Transport, Limited, of 71, Park Street, Calcutta, and their employees represented by the Association of Employees' Unions in connection with the case of Ram Sukul Singh.

Basdeo and Ram Sukul were the two durwans employed by the Company at their Pump Station on Lower Circular Road close to Chowringhee corner. On account of an incident Ram Sukul was discharged on the 11th October 1949. Since then Basdeo has also been dismissed. The present dispute centres round the reinstatement of Ram Sukul or in the alternative for other relief.

AWARD.

I think I should give version of the parties in their own words.

The Union's version of the case is "That the whole trouble originated from a family quarrel and personal grudge against Ram Sukul mainly.

That one Ram Naresh Singh (the driver) still in employment of the said Company is a cousin brother to Ram Sukul.

That families of Ram Sukul and Ram Naresh were involved in a criminal suit at Ranipur (village), district Azimgarh, their native place, over the title and occupation of a piece of land, subsequently culminated to criminal assault, rioting and grievous hurt, on about May 1949.

That both Ram Sukul and Ram Naresh left Calcutta for their village home, on leave, for the purpose of bringing about a settlement and after about 9 days' stay at home they started back to Calcutta as no settlement was possible and practicable.

That since then bitter feelings were aggravated between Ram Sukul and Ram Naresh and Ram Naresh waited only for an opportune moment. That Ram Naresh being a driver to Sri V. M. Nair, Manager to the said Company, was placed at an advantageous position.

That Ram Naresh maliciously made allegation against Ram Sukul and Basdeo who is simply trapped and troubled for being in the same Service Station and working with Ram Sukul.

That at about 7-30 p.m. on 10th October 1949, Ram Naresh along with Mr. Smith and Mr. Ayer on way to Lower Circular Road Service Station dropped those two officers at some distance from the Service Station.

That he then went to the Service Station. Basdeo was on duty, Ram Sukul was not there. Ram Naresh handed over coupon and one credit slip for two gallons of petrol. He took delivery of the petrol and left the place.

That immediately after Ram Naresh had left the place Mr. Smith and Sri R. R. Iyer hurried to the office room of the Service Station and flared up at Basdeo and charged him against theft and black marketing. Under their order further sales of petrol were stopped.

That they thereafter began to drag Basdeo for police-station (police-station Bhowanipur). Both the officers abused and assaulted Basdeo. In the meantime Ram Sukul who was informed about the trouble came to the place. He was also threatened and abused by those officers. They were taken to police-station and officers made a statement before the Officer-in-charge, Bhowanipur. Sri P. C. Ghosal of Bhowanipur police-station came back to the Service Station and counted coupons."

The employer's version is "(*a*) For some time prior to October 1949, the Company had been hearing rumours and complaints that petrol was being black-marketed at its Petrol Pump situated at 240B, Lower Circular Road. Durwans Basdeo Singh and Ram Sukul Singh were employed by the Company to jointly look after sale of petrol. The *modus operandi* was reported as stated below. (*b*) A driver (not the owner) takes a car to the Pump to buy, say, 4 gallons of petrol against coupons and, through a common understanding between the driver and durwans, only 3 gallons are issued to the car and the driver is paid cash by the durwans for the balance 1 gallon. This 1 gallon is then sold the same day, either early in the morning or late in the evening, in the black-market at prohibitive rates. (*c*) A trap was accordingly laid to verify the rumours. On the 24th September 1949, one of the Company's cars was sent with a full tank of petrol and with petrol coupons, soon after dusk. The driver of the car was tutored as to how he should behave. The Secretary of the Company was watching what was happening from across the road. No petrol was delivered to the car, neither was there any space in the tank to take any petrol and the driver was paid cash money to the extent of Rs. 12 against the 4 gallons. These 4 gallons must have been black-marketed the same night since, when the meter and the petrol coupons were checked by the Company's auditor the next morning, no difference was found. When the above took place both the durwans were inside the Petrol Pump and could be seen from across the road. After this there was a lull for a few days as the Company's auditor

was asked to make surprise checks. The illegal practice was, however, revived as soon as the auditor was withdrawn. (*d*) The trap was therefore laid over again on 10th October when another car with coupons for 2 gallons of petrol and a requisition slip were sent with the same driver after dusk. This time the Manager and the Secretary of the Company were watching from across the road what was taking place. No petrol was delivered to the car and the driver was paid Rs. 7. Apparently, the black-market rate had gone up because by then the unit value had gone down. Both the Manager and the Secretary of the Company immediately walked into the pump and found the requisition slip and coupons with durwan Basdeo Singh. When questioned as to why he did not deliver the petrol, there was no explanation offered. He apologised and begged to be excused. As the matter was serious, it was reported to the Bhowanipur police-station and diary entry made. Durwan Basdeo Singh was detained by the Police. The other durwan Ram Sukul Singh was not in when the Manager and Secretary entered the Petrol Depot, but appeared immediately afterwards. It was obvious to the Company that both the durwans were equally responsible for the black-marketing as they had joint duties at the Pump, although at the time of the incident on that date it so happened that only one was present. (*e*) The next day, *i.e.*, 11th October 1949, durwan Basdeo Singh was dismissed from service and durwan Ram Sukul Singh was discharged after payment to him of wages in lieu of notice as per the Company's Standing Orders approved by the Labour Commissioner."

The Union has examined Ram Sukul and Basdeo. The employers have examined Mr. Ayer, the Secretary of the Company and Mr. Smith, who is now the Manager, but was next to the Manager at the time of the incident.

Basdeo and Ram Sukul pleaded innocence while Mr. Ayer and Mr. Smith spoke about the incidents on 24th September 1949 and 10th October 1949.

If the incident on 10th October 1949 be studied alone Ram Sukul cannot be roped round because at the time of the incident he was absent. The incident of 24th September 1949 cannot be overlooked and as a matter of fact the event on 10th October 1949 was only an incident in a chain of events of which the earlier was one.

Let me consider the incident on 24th September 1949. Ram Sukul and Basdeo denied that incident. In a way they did not get any scent that they were being observed without knowing it.

The Company wanted to ascertain the *modus operandi* of the two durwans. The trap was laid in for observing them for ascertaining the *modus operandi*.

Mr. Ayer took a car. The tank was filled to its capacity, *i.e.*, no further petrol could be poured into the tank. Ram Naresh was taken to drive the car. The driver was given coupons for 4 gallons of petrol and a credit slip. The credit slip was in lieu of the price. Mr. Ayer took his stand on the footpath on the other side while the car went into the Petrol Station. The pump was outside. Mr. Ayer could see whether any petrol was poured into the tank. He saw no petrol being poured in. Ram Naresh came out and gave him Rs. 12, being the price obtained by him for giving the 4 coupons to the two durwans. Mr. Ayer saw both Basdeo and Ram Sukul making the transaction with Ram Naresh. On the following day, the durwans submitted the account of sale showing sale of petrol covered by the coupons. The auditor verified and found that the sales stood correctly against the stock of petrol. The obvious inference is that petrol covered by the coupons was removed from the stock. No petrol was given nor could be given as the tank was full. The account indicated supply of petrol against the 4 coupons. There can be no doubt that the driver was bribed to part with the 4 coupons to enable them to black-market in petrol. Mr. Ayer saw both the persons,

Ram Sukul and Ram Naresh, transacting the business. All that he saw is that both were talking with Ram Naresh, and Ram Naresh came out, Ram Sukul being present knew everything. He does not say here that Basdeo was the only man doing this thing.

On 10th October 1949 the Management wanted the final trap to rope round the two durwans on the same procedure as was followed but this time not only Mr. Ayer but also Mr. Smith came and both stood on the other side of the street. Ram Naresh went to the Petrol Pump with coupons and requisition slip and came out, handed over Rs. 7 to Mr. Smith and thereafter Mr. Smith raided the Petrol Pump and found the coupons and requisition slip. Basdeo was only present there and he gave out the explanation that he did not deliver the petrol through mistake.

It has been contended that Ram Naresh had enmity with Ram Sukul and therefore he entangled them. A further comment was that Ram Naresh was not examined in this case. Ram Naresh and Ram Sukul are first cousins and looking to the fact Ram Naresh agreed to lay the trap without giving any warning to Ram Sukul, clearly shows that they are not in good terms. The case does not depend on any performance of Ram Naresh. It all depends on the testimony of Mr. Ayer. It could clearly be seen whether any petrol was put into the car on the 24th September. On the following day the durwans submitted account showing sale of petrol under the coupons. The case is clearly proved against both. Ram Naresh's enmity does not affect the position. Though Mr. Ayer was at a distance he could clearly see whether any petrol was put into the tank or with whom Ram Naresh was speaking. It was not possible for him to hear what talks they had, but this is immaterial.

It was argued that the Company did not take any action immediately after what Mr. Ayer saw on 24th September 1949. The Company's conduct is understandable. Mr. Ayer wanted to verify the reports he had received about *modus operandi*. After he ascertained the *modus operandi* the final trap was laid and another superior officer was there as witness. Though Ram Sukul was not present on 10th October 1949, yet his complicity in the matter as observed on 24th September 1949, clearly shows that the two durwans were in league and were carrying on business jointly.

I am clearly of opinion that Ram Sukul was guilty of misconduct and his discharge has been quite appropriate.

It is no doubt true that the Police rejected the case against Basdeo on the ground that the evidence was not sufficient. As a Judge I think the Police assessment of circumstantial evidence has been very imperfect.

As Ram Sukul has been guilty of misdemeanour he cannot be reinstated and cannot in terms of the standing orders get any gratuity which in terms of the award of the Engineering Tribunal comes to be Rs. 22 only.

The demand of the Union is dismissed.

If all the three members of the group are not present, the remaining members can go round without the absentee or absentees, as the case may be. The members constituting the group should inspect the internal arrangements and offer such suggestions regarding the administration of the institution as they think proper.

A visitors' book will be kept in the hospital in which the recommendations of the Committee will be recorded. The Superintendent will note on the margin the action taken on each recommendation with any other remarks of explanations that he may wish to offer. He will transmit a copy of the entries without delay to the Director of Health Services, West Bengal, for consideration. The Director of Health Services will take such further action as may seem necessary and will bring to the notice of Government any matter which he thinks sufficiently important. A copy of the entries should also be sent to the Secretary to the Government of West Bengal, Medical and Public Health Department, for information.

Under the existing instructions, sanctions in respect of the extension of service beyond the age of superannuation and of re-employment of officers who have superannuated can be issued only with the concurrence of the Ministry of Home Affairs. The matter has recently been reconsidered by the Cabinet in respect of displaced officers and of scientific and technical personnel. In the case of displaced persons who continue to be physically fit after reaching the age of superannuation and whose services are considered useful to Government, the Ministry of Home Affairs, has been authorised to relax more liberally the rules regarding superannuation. In the case of scientific and technical personnel also the Cabinet have expressed the view that it would be desirable to retain their services, if their special experience so warrant even after the normal age of retirement.

2. The Ministry of Home Affairs will continue to be responsible for the enforcement of the policy regarding the superannuation of officers and all

cases including those of displaced officers, scientific and technical personnel covered by the recent Cabinet decision should continue to be referred to them well in advance (at least three months before the date of superannuation or expiry of the sanction) as at present.

NOTIFICATION.

Nadia.—No. P.H. 1851/2R-10/50.—22nd July 1950.—The following draft of rules which, in exercise of the power conferred by section 311 of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), the Governor proposes to make for the regulation of the supply of filtered water to private premises for domestic purposes in the municipality of Nabadwip, in the district of Nadia, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 15th September 1950, and any objection or suggestion with respect thereto received by the undersigned before the date will be considered:—

Draft rules.

So long as the Commissioners of the Nabadwip Municipality hereinafter referred to as "the Commissioners" deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Chapter V of the Bengal Municipal Act, 1932, on the annual value of such holding, when such annual value is not less than Rs. 100, to lay down communication pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions:

Provided that no connection shall be allowed to holdings other than masonry buildings without the sanction of the Commissioners at a meeting:—

1. The owner or occupier of any holding whose annual value is not less than Rs. 100 requiring water to be laid on to such holding for domsetic purposes, or requiring any addition or alteration to an existing water-supply, shall apply for the same on a printed form to be supplied, free of cost, at the municipal office.

2. A fee of Rs. 350 or such sum as may be determined hereafter shall be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe or a common communication-pipe laid in accordance with rule 3 before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Except as provided below each holding shall have a separate connection to the municipal main supply-pipe and extensions from the communiation-pipe of one holding to another holding shall not be permitted:

Provided that with the consent of the Commissioners at a meeting connections to two or more holdings may be permitted from a common communication-pipe. Any such communication-pipe shall be laid in a street or common passage, and a stop-cock and meter as provided for in rule 7 shall be fixed on the connection to each holding:

Provided also that no holding shall have more than one separate connection, but if in any case the Commissioners at a meeting are satisfied that an adequate supply to any holding cannot be given through a single connetion, they may sanction a second connection hereto.

4. The owner or occupier of the holding, in respect of which the connection is required, shall pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7 and shall also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

5. The owner or ocupier of the holding to which a connection has been given shall, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof which the Commissioners may consider necessary to put into a satisfactory condition or which may be necessitated by any change in the municipal water-works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.

6. (*1*) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(*2*) No work shall be carried out under sub-rule (*1*), except under the supervision of a municipal officer.

8. (*1*) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them at a meeting.

(*2*) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(*3*) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard pattern, he shall present such fitting for the approval of the Chairman of the Commissioners and any fittings so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection, when fitted in position, shall be capable of standing a pressure of 40 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (*a*) and (*b*) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holding as follows:—

(*2*) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked and the key of this box shall remain under the control of the Chairman.

AWARD.

The dispute under reference is over the dismissal of Sri S. K. Sen Gupta, ex-Head Clerk of Sarugaon Tea Estate.

It came on for hearing on 19th June 1950 and both parties appeared before me and filed a joint petition of compromise.

There being no dispute before me calling for adjudication, I make my award in terms of the petition of compromise which shall be treated as a part of my award. The terms of the petition of compromise are the following:—

(1) That Sri S. K. Sen Gupta, Head Clerk, is reinstated to his former status as Head Clerk but shall resume his duties on transfer to another garden under the management of Messrs. Andrew Yule & Co., Ltd.

(2) That as regards back pay from May 1949 up to his date of reinstatement the amount will be decided and paid by the Company according to the decision of the present Manager of the Tea Department.

Sen Gupta was left to the discretion of the present Manager of the Tea Department of Messrs. Andrew Yule & Co., Ltd.

Hosiery Factory (Calcutta), Ltd., 7, Council House Street, Calcutta, and their employees represented by the Association of Employees' Unions, Block No. 2, 2nd floor, 23, Netaji Subhas Road, Calcutta, in connection with the case of Sri T. Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE.

In the matter of an industrial dispute between Messrs. J. K. Hosiery Factory (Calcutta), Ltd., 7, Council House Street, Calcutta, and their employee Sri T. P. Gidwani represented by the Association of Employees' Unions, Block No. 2, 2nd floor, 23, Netaji Subhas Road, Calcutta.

PRESENT: SRI G. PALIT, *District Judge, Industrial Tribunal.*

Present for the Union: Sri Jiten Banerji, Joint Secretary to the Association of Employees' Unions.

Present for the Company: Sri N. M. Das Gupta, Pleader.

1. By order No. 1881Lab., dated the 19th April 1950, the Government of West Bengal constituted a Tribunal of one Judge under sections 7 and 10 of the Industrial Disputes Act (Act XIV of 1947), and referred the said dispute to me for adjudication.

2. The reference was received on 21st April 1950. The Union filed its written claim on 13th May 1950. The Company filed its written objection on 23rd May 1950. The case was taken up for hearing after framing the issues on 19th June 1950. There was a talk of compromise which did not eventually materialise. So the case was taken up for hearing on 22nd June 1950.

3. The issue stands as follows: Is Sri T. P. Gidwani entitled to reinstatement and/or compensation?

AWARD.

The facts which led up to the present dispute are quite simple. According to the Union Sri T. P. Gidwani was originally appointed at Kanpur by Messrs. J. K. Oil Mills on 13th May 1943. He was transferred to Calcutta in October 1944 and was deputed to serve under Messrs. J. K. Hosiery & Co., Ltd., which was an associate and allied concern of J. K. Group in Calcutta. It was on 2nd September 1949 that Sri T. P. Gidwani got a notice of termination of his appointment at his office. The letter was dated 31st August 1949. At that time Sri T. P. Gidwani was drawing Rs. 320 per month as his wages. He approached the Company to no effect for reinstatement. So he referred the matter through the Association to the Labour Commissioner, West Bengal. Attempts at conciliation followed with no success. The matter has ultimately been referred to the Tribunal for adjudication. Sri T. P. Gidwani claimed his reinstatement, and failing that, compensation, bonus, gratuity, etc.

The Company contends that Sri T. P. Gidwani does not come within the definition of "Workman" as defined in the Industrial Disputes Act of 1947, and as such the Tribunal is not competent to decide this matter. Besides, it contends that Sri T. P. Gidwani's services were terminated at Kanpur. It was in April 1948 that he was appointed by Messrs. J. K. Oil Mills of Kanpur and posted in Calcutta. As his services were not required by the Company which was suffering loss, he was given verbal notice in January 1949 and again in July 1949 to seek his job elsewhere. He was ultimately

given a notice of discharge on 31st August 1949 terminating his appointment with effect from 1st September 1949. The Company admits that there was a clerical mistake in the said notice about the date.

The facts are not disputed during the trial. Regarding the jurisdiction of this Tribunal to go into this dispute I am of opinion that the Company's contention is not correct. Sri T. P. Gidwani, as it appears from the evidence, was a salesman of the mill. He was employed in outdoor work. As such, his job may be termed as "clerical", only of a superior status and he comes within the definition of "workman" as defined in the Industrial Disputes Act of 1947. That he was employed in an industry and also for wages is without question. So the initial objection of the Company on the score of jurisdiction is overruled.

Regarding reinstatement of Sri T. P. Gidwani, the claim is not pressed. Even if it was pressed, I do not think it could be sustained, because the Company has abolished the post for financial reasons. Certainly every Company is free to manage its own affairs and it is within its inherent right to retrench a man if his service is no longer required. So the claim for reinstatement fails. Regarding the claim for bonus and gratuity, the claim was not seriously pressed during the trial. As a matter of fact, it was not also referred to in the argument of the agent of the employee. As the man was out of service, he could not press his claim for any bonus. Regarding gratuity, the employee was in the service of this particular mill only from April 1948. He may have rendered services to other mills under the same proprietor. But that does not entitle him to claim gratuity under this particular mill owned by Messrs. J. K. Hosiery Co., Ltd., unless he can show that there was continuity of service. He could not make out before me that there was a continuity of service right from 1943. So his claim for gratuity also fails. Certainly, the Company was not justified in serving the notice of retrenchment on the 2nd September 1949 terminating his services with effect from the expiry of the 31st August 1949. That must have been a mistake in the notice as the Company admits. His services were intended to be terminated with effect from 1st September 1949. But the employee is entitled to get compensation for one month from the date of notice, that is, from 1st September. It is next contended by his agent before me that the man was drawing a handsome salary and as he hails from Hyderabad where he has lost all his assets, the Tribunal must grant him further compensation. I allowed the parties full opportunities for a compromise, but what with this and what with that the compromise did not materialise. In the present financial position of the Company I am unable to grant more compensation than what the employee can legitimately claim, namely, one month's salary only for the month of September 1949. The employee in question had previous intimation of termination of his job. So he cannot say that the termination of his service sprang surprise on him. In the circumstances, I do not award any further compensation than one month's salary only for the month of September 1949 assessed at Rs. 320. This payment must be made within two months from the date of publication of this award. That is all the relief that I award in the present case.

In the matter of industrial dispute existing between Messrs. Calcutta Jute Manufacturing Co., Ltd., 93, Narkeldanga Main Road, Calcutta, and their workmen represented by the Narkeldanga Jute Workers' Union, 62, Narkeldanga Main Road, Calcutta, in connection with the case of Sri Kali Prosad Ambusth, a clerk.

PRESENT: SRI SAILES CHANDRA CHAKRAVARTI, *Chairman of the Tribunal.*

For the Company: Sri S. C. Sen, Advocate, assisted by Sri N. Das Gupta, Pleader.

For the Union: Sri P. K. Sanyal, Advocate.

Acting under sections 7 and 10 of the Industrial Disputes Act, 1947, the Government of West Bengal, Department of Labour, by their order No. 2296Lab., dated the 8th May 1950, constituted with me a tribunal to adjudicate upon the industrial dispute existing between Messrs. Calcutta Jute Manufacturing Co., Ltd., 93, Narkeldanga Main Road, Calcutta, and their workmen represented by the Narkeldanga Jute Workers' Union, 62, Narkeldanga Main Road, Calcutta, in connection with the case of Sri Kali Prosad Ambusth.

The reference to me has been confined to the dispute in connection with the case of Sri Kali Prosad Ambusth and the specific reliefs prayed for are (1) reinstatement of the said workman and (2) pay and emoluments for the period of his non-employment resulting from the dismissal.

AWARD.

Kali Prosad Ambusth, a clerk employed in the mill in the stores department, was dismissed on the 31st March 1950 on the charges of misconduct in insulting the Manager, leaving the place of work and threatened violence to the time-keeper and, further, for inciting a strike.

The Union's case is that there were some outstanding disputes with the Company and that Sri Ambusth, an Assistant Secretary, was functioning as the Secretary of the Union at that time. The story is that on the 27th of March 1950, at about 7-30 a.m., when Kali Prosad Ambusth was going to resume his duties after lunch, he found a rumour of workers having some

disputes with the Manager. He asked one of the workers—Raghunath—as to what had happened. The Manager flew into a rage and abused him. It is said that nothing happened on that day as also on the following day. It is said that when on 29th March 1950 Ambusth came to attend to his duties in the morning he found that a charge-sheet against him had been posted on the notice board and he was not allowed to go in. It is said that at about 11-30 a.m. the said Kali Prosad Ambusth interviewed the Labour Commissioner for intervention. He said that thereafter at 4-30 p.m. the charge-sheet was made over to him and he showed cause on the 30th March. It is said that on 31st March he was dismissed by the Manager without any enquiry being made by the Manager.

The version of the Company is that on the morning of the 27th a complaint was made to the Manager that some outsiders had come to the mill gate. He went there and found that this was a fact. He expelled the persons and, while returning, found in presence of the Labour Officer a group of workers. It was found that a workman who had been on leave had been directed to appear on the expiry of his leave. It was found that he had a sore in his feet and could not do any work. Some workmen were demanding that as the disabled man had been brought on the basis of a letter from the Company he should be paid the cost of journey. The Manager was talking with them and it was about 6-45 a.m. when Ambusth came from his place of work in the store room in an agitated condition shouting that the Manager had allowed outside *goondas* to come in. He was hysteric and began shouting at the Manager for allowing the men to come and showing him fists and saying that he would see what sort of Manager he was. It is further said that on seeing the time-keeper at a distance he cried that that *badmash* was responsible for introduction of the strangers and should be assaulted outside the mill. At this some of the workers rushed towards him and the Manager and the Labour Officer intervened and slowly decoyed the whole people to the mill side and Ambusth to his place of work. On the afternoon of the 28th charges were framed against Ambusth and were sent to him entered in a peon book. Ambusth read the charge-sheet but refused to sign the peon book. The mill was closed at that time. The Manager directed the gate-keeper and the Labour Officer not to allow Ambusth to enter the mill on the following day. The charge-sheet was posted on the notice board and arrangements were made for the charge-sheet being made over to Ambusth on the following morning. On the following morning Ambusth came and saw the situation. He tried to enter the mill but was not allowed. He insisted on making the necessary entry in the Hazira book which was refused. He then shouted from outside the gate that as he was not allowed to enter the mill, the workers should not do any work. Soon after the commencement of the work the workers staged a strike. The Manager informed the police. Ambusth in the meantime went to the Labour Commissioner's office and the Assistant Labour Commissioner, Janab Q. Newaz, went there at about 3 p.m. along with Srijut Mukherjee, the Labour Officer of the I. J. M. A. As the time for Ambusth's submitting explanation was nearly ending, Janab Newaz induced the Manager to extend the time and requested Ambusth to accept the charge-sheet. Ambusth agreed to it and the members of the Works Committee and some leading workers were called in wherein Ambusth was present. The situation was explained to them and they were asked to resume work. Ambusth enquired whether he would be allowed to work. It was said that he would not be allowed to work till the Manager permitted. On this Ambusth and the workmen said that in that case the strike would not be called off. At this stage the Assistant Labour Commissioner left the place and thereafter Ambusth submitted the explanation. Then the Manager considered the explanation and dismissed Ambusth.

There is no evidence of previous ill-treatment to Sri Ambusth. On the other hand, it appears that he was frequently granted leave and as he was irregular, without any reduction of pay he was transferred to a post where occasional absence did not impede work. The Works Committee was functioning with another office bearer of the Union as the Joint Secretary. Many of the employees were office bearers of the Union and no one was so long punished. After this it is difficult to imagine why the Manager wanted to sack this particular clerk for nothing except for trade union activities.

On the other hand, it looks strange why a report of the entry of outsiders should upset Sri Ambusth to such an extent as he would burst into hysterics and direct his oral assaults to the Manager and the gate-keeper.

I think the internal affairs of the Union will help us to understand the matter better.

There was an informal and unregistered Union some time before, but the real Union was formed and registered in December 1948. Sri Phani Ghosh was the President and Ram Sakti Samanta was the Secretary. Kali Prosad Ambusth was one of the Assistant Secretaries. There were Vice-President and other Assistant Secretaries.

Sri Phani Ghosh is a reputed trade unionist in the State. There is I. N. T. U. C., the all-India organisation and under it is B. P. N. T. U. C., the organisation for the State of West Bengal. Under B. P. N. T. U. C. there are unions as also federations of unions. There is a federation of unions of the Jute Mill Workers' Union. Sri Phani Ghosh was also the Joint Secretary of the Jute Workers' Federation.

Internal troubles in the Union arose in the middle of 1949 when Ram Sakti Samanta, the Secretary, resigned. Samanta put forward the plea that he had to resign as he could not control Ambusth who acted in the way he liked. Samanta's resignation was not formally accepted but he stepped aside and Kali Prosad Ambusth became *de facto* Secretary. In a letter, dated the 15th November 1949, written by Sri Phani Ghosh from Switzerland to Kali Prosad Ambusth he stated that on account of Ram Babu's stepping aside the whole responsibility fell on him. He admonished Ambusth that he was drifting towards personal affairs from Union politics and asked him to devote his energies in strengthening his Union in the Jute Mill first. Phani Babu also told him that he must not court too many leaders because the result of such a course would be that no one would trust him.

There were some outstanding disputes with the Management. In the beginning of 1950 Sri Phani Ghosh, as the President of the Union and as the Secretary of the Federation, took some steps for canalising the disputes in a particular way. This was communicated to Ambusth on 21st February 1950. Ambusth did not like it and on 20th March 1950 wrote to Sri Phani Ghosh not to meddle with the affairs of the Union. Prior to this letter Sri Ambusth invited Sri Bijoy Singh Nahar to be the President in a meeting held on 18th March.

The matter, as it stood on the 20th March, was this. Some of the workers were with Ambusth and some with Phani Ghosh. A month before Phani Ghosh had made an arrangement for canalising the disputes in a particular way. According to Ambusth, Phani Babu was unsteady and was drifting away and therefore he brought in Bijoy Singh Nahar with the obvious object of replacement and in a meeting held by him on 18th demands contrary to Ghosh's plan were taken. P. W. 2, Raghunath, said that when Kali Babu fell out with Jugol the former brought in Bijoy Singh Nahar. He further said that Jugol was Kali Babu's enemy. P. W. 3, Bishen Rajbhor, said that Jugol Babu tried to enter the Union but some workers resisted it but the

Company allowed him to enter the factory to incite the workers to join his Union. He made another interesting revelation. "Three or four months before the incident Brindaban, Madho, Jugol and Raj Kishore assaulted Kali Babu outside the factory." After getting Bijoy Singh Nahar on the 18th, Ambusth openly asked Phani Ghosh not to meddle with the work of the Union without obtaining the consent of the office bearers. Ambusth with a following was standing in revolt against the President. Jugol and others were trying to undermine Ambusth's hold on his followers. Ambusth's party laboured under the suspicion that the Management supported Jugol's camp. A new Executive Committee was formed on 6th April when Ambusth was ousted. Ambusth denied the meeting. On the eve of this election a certain amount of canvassing was necessary and must have been made especially when the workmen were divided. Jugol came on the morning of 27th. It is now understandable why on hearing this report Ambusth became angry with any persons suspected to be responsible for allowing him to come and burst into hysterics.

Ambusth's version of the story becomes probable if we assume that the Manager wanted to have Phani Ghosh and Dr. S. C. Banerji in the Union and for this purpose was prepared to do anything. The Management was not to gain anything as these gentlemen were seasoned trade unionists and stood much above being corrupted.

When we compare the two versions, the version of the Company becomes probable while the story given by Ambusth appears to be improbable. I believe the Manager, Sri Jyotish Chandra, that Ambusth left his work at 6-45 a.m., used insulting words against him, showed him fists and threatened the gate-keeper.

Now let us pass over to the second phase. This part is relevant not for considering whether Ambusth is guilty of the charges as against him but is relevant for determining the amount of punishment. I have already found that Ambusth was guilty of the offences with which he had been charged. The charges were framed in the evening of 28th. The Manager says that he being treated in that way by a clerk felt agitated and did not want to do anything till he calmed down. His further version is that he waited till the evening of 28th to see if there was any spontaneous expression of regret from Ambusth. It seems to me that he wanted to be very cautious as any action against Ambusth might lead to some trouble. A little before the mill was to close on the 28th the charge-sheet was sent to Ambusth entered in a peon book. Ambusth admits that a letter was taken to him but that he did not know what it was and that as the mill had already closed he asked the man to come on the following day. The Manager's version is that Ambusth tore the envelope and saw the contents and then refused to sign the peon book. Even if he did not go to that extent, Ambusth admitted that he saw the entry in the peon book. When confronted with the entry in the peon book which indicated that the letter contained his charge-sheet he turned back and said that he only saw his name and not the other entries. He forgot that he was telling the story to a Judge and not to a grand-mother. Though the Manager does not admit, I can understand why he selected that time for sending the letter. It was the closing time of the mill. The Manager probably apprehended some demonstration by Ambusth and he wanted to avoid it by delivering the letter at that time. I think Ambusth wanted just contrary to what the Manager desired.

On the morning of the following day Ambusth came to the gate. He was not allowed to enter the mill, nor was he allowed to sign the Hazira book. Ambusth said that when he was not allowed to enter he went ouside the gate and after some time heard that there was a strike in the mill. P. W. 2,

Raghunath, said that on hearing that their Secretary Kali Babu was not allowed to work they spontaneously stopped work. P. W. 3, Bisen Rajbhor, said "Kali Babu told us that he was dealt with by the Manager in that way and that other Babus would also be dealt with in the same way and that if we wanted to work we could work". It is thus clear that Kali Prosad Ambusth, after he was refused entry, said some thing. Though he and Raghunath denied it, the other witness admitted that he said some thing. Though what P. W. 3 said does not amount to incitement to a strike, it goes perilously near suggesting some action. The Manager says that he heard Ambusth shouting that as he was not being allowed to enter the mill the workers should stop the work of the mill. The gate Babu—Dinanath Singha, P. W. 4, —also corroborates what the Manager says. I have not the least doubt that the Manager is telling the truth and that Sri Ambusth incited the workers to stop work to compel the Management to allow him to enter the mill.

The next point relevant is the arrival of Janab Q. Newaz, the Assistant Labour Commissioner. He went there at 3 p.m. He says that he made the Manager agree to extend the time for submission of explanation and Ambusth at first agreed not to come to the mill till he was asked to do so. The Manager then called in the members of the Works Committee and some other workmen. The terms were explained to them. These included resumption of work from 30th March 1950. The workmen were told that they would not get any wages for the 29th. Janab Newaz further added that at this "the workmen and Sri Ambusth said that unless the latter was allowed to join on 30th March 1950, they would not resume work". This clearly shows what hand Ambusth had in the strike. After Janab Newaz had left the place Ambusth accepted the charge-sheet.

It is thus clear that Ambusth was guilty of misconduct, and when a charge-sheet was framed against him he did not accept it but created troubles and brought about a situation which was beyond all comprehension. In view of the subsequent conduct, the punishment, viz., dismissal, appears to be only just and reasonable.

The learned advocate appearing for the Union urged that there was no enquiry after Ambusth submitted his explanation. The Company has got printed form for charge-sheet. There is in it a column with the heading "Overseer's comments". The next column is for "Labour Officer's comments". The Manager, on receipt of the explanation sent the charge-sheet for comments by the Officer-in-charge of Stores and for the Labour Officer's comments. He did not send to them Ambusth's explanation. If a full-fledged enquiry had been necessary, I should have considered this as nothing. But the real point is that in this case no enquiry was needed. The offences were committed in presence of the Manager, the person who is the final authority for inflicting punishment of dismissal. The object of an enquiry is to ascertain true facts. When facts were known to him it was unnecessary for the Manager to send the papers to the two officers for their comments. The Manager's business is to run the mill and not perhaps to understand legal implications correctly. In my opinion, there is no substance in this argument.

Another point raised is that the Manager, as the complainant, had arrogated to himself the duty of a Judge. It was contended that this was against the fundamental canon of administration of justice and contrary to the provisions of the award of the Jute Textile Tribunal. The Manager is the head of the mill and has got powers of appointment and dismissal. Departmental enquiry is not a judicial trial. Administrative enquiries become very satisfactory when the real facts are known to the person who deals with the matter. This was not a regular trial or regular judicial trial

for any offence. Here the Manager could charge an employee for misconduct in his presence and he was quite competent to deal with it. There is, in my opinion, nothing in the award of the Jute Textile Tribunal contrary to this.

This is no case of victimisation. I must once more say that trade unionism is no passport to indiscipline. There might have been party conflicts. Even if Ambusth suspected that the Manager gave some advantage to his rival party, yet he should have been disciplined. It was unpardonable for him to show his fists to the Manager and say that he would see what sort of Manager he was.

All the claims of the Union are refused.

By Government of West Bengal, Department of Labour, order No. 5887Lab., dated the 22nd November 1949, this industrial dispute between the Champdany Jute Mill, Baidyabati, Hooghly, and their clerical staff represented by the Champdany Jute Mill Employees' Union, Baidyabati, Hooghly, over the question of revision of grades and scales of the clerical staff on a fair and equitable basis, has been referred to me as an Industrial Tribunal for adjudication. The parties submitted their written statements in due course, and further statements in elucidation of the points raised by both sides in course of the discussion were received. As the order of reference indicates the only point in dispute, which forms the subject-matter of the present adjudication, is the question of revision of grades and scales of the members of the clerical staff on a fair and equitable basis.

It appears that this matter engaged the attention of the Union as well as the Company even before the Jute Textile Industry Tribunal was constituted. In paragraph 6(7) on pages 29 and 30 of the Jute Textile Industry Tribunal's award as published by Government of West Bengal, order No. 3443Lab., dated the 20th September 1948, that Tribunal fixed only two grades for the lower grade clerks, viz., Grade I (Rs. 70—4—130), and Grade II (Rs. 55—3—85). The Tribunal noticed that the scales of wages applicable to higher or special grade clerks varied very widely from mill to mill, and in view of the widely different conditions prevailing in the different establishments, it did not find it practicable to fix definite time scale grades for the higher or special grade clerks, and it came to the conclusion that the question of basic wages and grades for higher or special grade clerks should be left to the discretion of the individual employers in the different jute mills. In the present proceedings before me the propriety of fixing the above mentioned Grade I and Grade II for the lower grade clerks is not disputed. It is however contended by the Union that the discretion left to the employer in this particular mill for determining the grades applicable to individual clerks has not been correctly and equitably exercised even in respect of the two grades applicable to lower grade clerks. It is further contended that the grades applicable at present to those clerks who ought to be classified as higher or special clerks are not fair and equitable, and the higher or special grades should be revised on a proper basis. The demands put forward by the Union in the present dispute in respect of this particular mill are two-fold, viz., (1) that the higher or special grades should now be determined by the Tribunal, and (2) that the Tribunal should evaluate all the jobs held by both higher or special grade clerks and lower grade clerks, and each job should correspond to a particular grade, and a person holding a particular job should be entitled to the corresponding grade.

2. It has been contended on behalf of the Union that the grades should be fixed in accordance with the terms laid down by the Mercantile Firms Tribunal for the clerical staff of the office of the Managing Agents of the Mill under consideration. I am unable to accept this contention as sound or fair, as it must be appreciated that there is a good deal of distinction between the clerical staff employed in the factory and office or other places appertaining to a jute mill and that employed in the mercantile office of the Managing Agents in the city of Calcutta. The conditions of employment are apparently different and the nature of the duties performed must also be different from various points of view. I come to the conclusion that the case of the clerical staff attached to a jute mill must be considered quite independently of the city office of the Managing Agents. In the present proceedings both sides have fully accepted the two grades for lower grade clerks laid down in the award of the Jute Textile Industry Tribunal, but they have put forward divergent views about the grades to be applied to the higher or special grade clerks. I should note here in passing that the Jute Textile Industry Tribunal, of which I happened to be the Chairman, intended to convey the same idea by the use of the words "higher" and "special". The Union has urged that apart from the two lower grades already determined by the Jute Textile Industry Tribunal there should be two higher grades, viz., Rs. 150—10—250, and Rs. 110—5—170, and also a special grade above the higher grades, such special grade being left to the discretion of the management. The Company, on the other hand, has put forward before me a scheme of higher or special grades, apart from the ordinary grades, which is said to have been framed on the basis of the recommendations of a technical sub-committee constituted by the Indian Jute Mills Association. The Company's scheme regarding higher or special grades is that there should be five grades, viz., Rs. 190—5—250,

Rs. 130—5—190, Rs. 110—5—170, Rs. 100—5—160 and Rs. 90—5—150. The Union has contended that there should not be two many higher grades. On examining the nature of the different jobs being performed in the mill, I have got the impression that while the number of higher grades need not be too many, it should not be too few, in view of the various types of work involved in the running of a jute mill. On giving careful consideration to the arguments advanced on both sides, I have come to the conclusion that the grades applicable to the clerical staff in the Mill under consideration should be the following:—

Higher or Special grades.

S.A. Rs. 190—10—260.
S.B. Rs. 130—6—190.
S.C. Rs. 110—5—170.
S.D. Rs. 90—5—150.

Lower grades.

I—Rs. 70—[illegible]—130.
II—Rs. 55—3—85.

3. The next question is to determine a grade for each job. Both parties were asked to submit a list of the designations held by the existing clerks and the duties performed by each of them, and such lists were submitted by both. As regards the description of the duties performed by each clerk, it was agreed during the discussion that there was no substantial difference between the versions submitted by the two parties. I find, however, that the description of duties as given in the list submitted by the Company is more concise and to the point and for our present purposes I have preferred to adopt the descriptions given by the Company. Both parties have submitted a detailed list of the individual clerks holding the different jobs together with their respective suggestions as regards the grades of basic wages which they consider to be applicable to the respective jobs. I have carefully considered the nature of the jobs performed in the light of the materials placed before me and the suggestions of both sides regarding the grades and have come to my own conclusions which I consider to be fair and equitable. It is noticeable that in some cases the suggestions of the two parties are identical, whereas in most cases they have differed, sometimes widely. In setting forth my conclusions regarding evaluation of the different jobs by way of attaching a particular grade of basic wages to each job, I feel that the designation alone is not adequate for giving a full and correct picture of the job, and it is necessary to give a description of the duties involved in each case. It also seems to me that to ensure a correct identification of the job it will be necessary for our present purposes to mention the name of the present holder of the job. The name of the clerical worker concerned is being mentioned in the chart, which I am going to set forth below, not for conveying the idea that the grade mentioned against him necessarily relates to him, but the idea is that the grade mentioned attaches to the job, and the name of the present holder of the job is mentioned for the purpose of ensuring a proper identification of the job. The manner in which the different jobs have been evaluated will appear from the chart set forth below, wherein, apart from the names of the 78 clerical employees holding 78 different jobs, the present designation and duties attaching to each job have been set forth, the existing grade as applied by the Company with effect from 1st January 1949 is also shown and the revised grade as determined by the Tribunal, except in a few cases of no change, is also shown in the last column. I direct that the grades set forth in paragraph 2 above be adopted, and they be applied to the different jobs in the Mill under consideration in accordance with the chart set forth below, with effect from 1st January 1950. The principle

to be observed when a clerical employee on an existing lower grade of wages is brought on to the corresponding revised grade shall be the following. His intitial wages should be fixed at the stage in the new grade which is equal to or next above the scale of wages he is drawing at present, and to this should be added one increment in the new grade. The new scale of wages thus obtained should take effect from 1st January 1950, as presumably the question of increment has been kept in abeyance during the pendency of the present proceedings since November 1949. I suggest, under the particular circumstances, that the period of operation of this award may be one year with effect from the 1st January 1950. The chart referred to above is set forth below:—

In the matter of an industrial dispute between Messrs. India Reconstruction Corporation, Ltd., 21A, Gour Laha Street, Calcutta, and their employees represented by India Reconstruction Corporation Mazdoor Panchayet of 121/2D, Surendra Nath Banerji Road, Calcutta.

PRESENT: SRI G. PALIT, *District Judge, Industrial Tribunal.*

Present for the Company: Sri Thakur Prosad Sarma, Manager and Sri R. N. Mukherji, an officer of the Company.

Present for the Union: Sri Jagannath Pandey, Secretary of the aforesaid Panchayet.

1. By an order No. 1759Lab., dated the 11th April 1950, the Government of West Bengal constituted a Tribunal of one Judge under sections 7 and 10 of the Industrial Disputes Act (Act XIV of 1947) and referred the said dispute to me for adjudication.

2. The reference was received on 15th April 1950. The Union filed its written statement on 6th May 1950. The Company filed its written objection on 12th May 1950. The case was taken up for hearing on 5th June 1950. The hearing continued from day to day up to 8th June 1950 when it was concluded. The issues were contained in the schedule of the order of reference. The issues stand as follows:—

ISSUES.

(1) What should be the total remuneration of the two following skilled employees who are getting Rs. 60?

(*a*) Sri Tincowri Das.
(*b*) Sri Priya Nath Chakravorty.

(2) Whether the employer is justified in dismissing the following three employees on the ground of alleged misconduct?

(*a*) Sri Chaturbhuj Singh.
(*b*) Sri Tarak Nath Das.
(*c*) Sri Chittaranjan Paul.

If not, whether the said three employees are entitled to reinstatement and/or compensation?

3. Before I actually discuss and record my findings about the issues referred to above, I think, it will be worth while to give a brief outline of the present dispute.

The Company was started three years back in Calcutta for the manufacture of electric fans and allied products. Its Head Office was at Kanpur where various kinds of plastic products were also manufactured. It is alleged by the Union that in 1948 the workers resorted to a strike as a result of which a flat rate dearness allowance of 8 annas per day was allowed by the Company. But this hardly succeeded in meeting the aspirations of the workers. They formed themselves into a Union known as the India Reconstruction Corporation Mazdoor Panchayet in February 1949 and it was registered in March 1949. On 18th April 1949 the Union placed its charter of demands before the Company. On 4th July 1949 an agreement was entered into between the Union and the Company on the intervention of Sri B. K. Roy, Labour Officer. Under that agreement, both the parties undertook to fully implement the terms of the award of the Engineering Tribunal with effect from the 1st July 1949. But in spite of repeated demands by the Union, the Company is said to have not implemented the said award. On the top of this, the Company locked out Sri Chaturbhuj Singh on 6th December 1949 without giving any reason whatsoever. The Company also dismissed Sri Tarak Nath Das and Chittaranjan Paul on 15th December 1949 summarily for alleged misconduct. Thereafter, some unsuccessful correspondence was exchanged between the Company and the Union, and the intervention of the Labour Directorate was sought for by the Union. Attempts at conciliation were made but to no effect. Then the dispute has been referred to the Tribunal for adjudication.

The Company admits that it granted dearness allowance on a flat rate of 8 annas per day but not, as the result of the strike. From 1st April 1949 the Company also granted general increment of pay to the workers. The Company admits the agreement to implement the award of the Engineering Tribunal. It granted increased rates of pay in pursuance of the award, viz., Rs. 2-2 per day for the unskilled and Rs. 2-5 per day for the semi-skilled workers. The Company pleads financial inability to pay extra dearness allowance to the skilled workers. Regarding the discharge of the three workers, the Company alleges that they were dismissed for misconduct and so it resists the claim for reinstatement or compensation. The Company is prepared to pay the wages till the day of dismissal of these workers and as a matter of fact, offered the same.

Issue No. 1.

Several things are admitted in the case. The Company does not deny that Sri Tincowri Das and Sri Priya Nath Chakravorty have earnings amounting to Rs. 60 per month. The Company also admits that there was an agreement between the Union and itself as per Exhibit 1. Under it, the award of the Engineering Tribunal was undertaken to be implemented for one year with effect from the 1st July 1949. The Company also admits that these two workers can be classed as skilled workers as per Exhibit 5. But the Union contends that these two workers being admittedly skilled workers, are entitled to a separate dearness allowance of Rs. 35 per month under the award of the Engineering Tribunal. In support of their contention the Union relies on an opinion expressed by Sri P. R. Mukherji and Sri P. K. Sarkar, two Judges of the Engineering Tribunal, on a reference made by the Labour Commissioner as per order No. 946Lab., dated 3rd March 1949. The learned Judges are said to have expressed an opinion, by way of clarification of the award, that where the wages of skilled workers are a consolidated one, they should get extra dearness

allowance. The employer cannot avoid its payment by merely splitting up the consolidated pay into basic pay and dearness allowance. The Company, on the other hand, contends that the learned Judges, sitting in the Tribunal, did not fix any minimum pay for the skilled workers. They also did not fix any dearness allowance for such workers. The Company refers to the opinion expressed by Sri K. K. Mitra, Assistant Labour Commissioner. He is said to have expressed an opinion that no prosecution would lie with reference to skilled workers for non-implementation of the award of the Engineering Tribunal. I must say that the Company and the Union seem to be labouring under a mistaken impression about the implication of the award of the Engineering Tribunal and also in respect of the opinion expressed by the learned Judges Sri P. R. Mukherji and Sri P. K. Sarkar in the matter of Texmaco's letter, dated 19th August 1948. In the case before me, it is an admitted position of both parties that dearness allowance was granted by the Company to the extent of annas 8 per day on a flat scale in 1948. So it is abundantly clear that Rs. 13 per month, taking a month to be of 26 days, so far as the workers are concerned, must have been included in the earnings or pay that was given to the workers. So the Union's claim to have extra dearness allowance of Rs. 25 or Rs. 35 under the award of the Engineering Tribunal cannot be sustained. If it succeeds it may succeed only partially. Here I am required to find how much of the pay represents basic wages and how much represents dearness allowance. From the Company's statement it is clear that though it raised the basic pay from time to time, it did not grant any more dearness allowance than 8 annas per day. The workers' month being of 26 days, Rs. 13 must be taken to have represented the extent of dearness allowance that was given. That being the position, these two workers, namely, Sri Tincowri Das and Sri Priya Nath Chakravorty, whose earnings per month came up to Rs. 60 admittedly, had Rs. 47 as basic wages and Rs. 13 as dearness allowance per month. But under the award of the Engineering Tribunal all workers, irrespective of their categories of unskilled, semi-skilled, skilled and highly skilled, would be entitled to get Rs. 25 per month on a pay range reaching up to Rs. 50 per month. I do not accept the Company's contention that dearness allowance was denied to the skilled workers. I quote from page 564 of the *Calcutta Gazette, Extraordinary*, dated 3rd July 1948, Part I, where this award finds mention. The passage runs thus:—

> "This scale of dearness allowance will apply to all workers, viz., factory workmen, clerial staff, supervisory staff and subordinate staff."

The skilled workmen must necessarily be included in the words "factory workmen" used above. So these two workers in question are entitled to get Rs. 12 more per month as dearness allowance. Financial inability cannot be pleaded by the Company in face of the agreement as per Exhibit I. So their earnings per month would be Rs. 60 plus Rs. 12, i.e., Rs. 72 per month of 26 working days provided they work on all the days. It is not clear whether in Texmaco's case, dearness allowance was admitted to have been included in the consolidated pay as here. If that was not so, unlike here, then the opinion of the Judges, Sri P. R. Mukherji and Sri P. K. Sarkar will be out of place. Similarly, the opinion expressed by Sri K. K. Mitra is also not relevant, because prosecution for non-implementation of the award of the Engineering Tribunal may not have been advised as inexpedient. But that can never amount to saying that the award of the Engineering Tribunal was implemented in fact, with reference to skilled workers in the present case. Thus the claim of the Union succeeds only partially. So, in conclusion, these two workers, Sri Tincowri Das and Sri Priya Nath Chakravorty would get Rs. 12 per month more from 1st July 1949, the date

of the operation of the agreement, as per Exhibit I, up to the date of this award. The Company will make this payment of arrears in three equal monthly instalments from the date of the publication of the award. The workers will have their earnings at this rate henceforth during the operation of this award.

Issue No. 2.

I take up the cases of these three discharged workers, one after another. They are said to have been discharged on the ground of alleged misconduct summarily without notice and without their being supplied with any written charge-sheet. They were apparently allowed no opportunity to explain their conduct. The Union contends that they are entitled to be reinstated or would get compensation. The Company resists the claim.

(*a*) Regarding Chaturbhuj Singh, he appears to have been discharged on 6th December 1949. The Company says that he was guilty of betraying the trade-secrets of the Company and also for suppressing the fact that his brother Bhubaneshwar, who was a gate-keeper of the Company in the godown at Grey Street, was guilty of dereliction of duty. This Bhubaneshwar was said to have been a whole-time employee, but he worked part-time elsewhere. His brother Chaturbhuj Singh did not inform the Company of this. It will appear from Exhibit 10, dated 27th December 1949, which purports to be a letter sent by the Company's Manager to the Labour Commissioner by way of explanation for Chaturbhuj Singh's dismissal that Chaturbhuj Singh was accused of betraying the secrets only and nothing else. So it is clear that to accuse him of screening his brother Bhubaneshwar is nothing more than an after-thought on the part of the Company only to justify the dismissal of Chaturbhuj Singh. Chaturbhuj Singh is said to have been discharged on 6th December 1949. But his certificate (Exhibit 15), purported to have been granted by Sri S. N. Chatterji, Factory Manager, on the following date, shows that Chaturbhuj Singh was looked upon as a very hard-working, intelligent and ardent worker. It is said that this certificate was obtained under a false representation of Chaturbhuj Singh that he was having a better job elsewhere. That may or may not be true but it shows unmistakably that on the very next day this man was discharged for betraying secrets and for misconduct, the Manager speaks of his qualities in very glowing terms. Not only that, this Chaturbhuj Singh had also other brilliant testimonials about his past conduct from the General Manager from time to time. So I have no hesitation in discarding the allegation of misconduct laid by the Company at the door of this worker, who had a sparkling and unblemished record of service. Now the point is why should the Company then discharge this worker? The Union has given the answer. That this man was the Assistant Secretary of the Mazdoor Panchayet and that was the cause which underlay his dismissal. The Union has proved beyond doubt that Chaturbhuj Singh was the Assistant Secretary of the Panchayet and also an active member of the same. The Company makes no secret of its displeasure for the activities of the Union even in its written statement before this Tribunal. To victimise an active member of the Panchayet and thereby to weaken its power, seems to be the manifest motive of the Company to discharge Chaturbhuj Singh. So this is an instance of clear unfair labour practice. I hold that Chaturbhuj Singh is entitled to reinstatement. He will have half pay calculated on the earnings of November 1949 from 6th December 1949 up to the date of reinstatement. He must be reinstated in his previous post, if that post is still vacant or in a corresponding post with equivalent pay and prospects. He must turn up for appointment within one month of the publication of this award. If he does not, then his claim for reinstatement must fail but he will be entitled to compensation on the basis of half pay during this

intervening period, I mean, from the date of his discharge and the date of this award. The payment must be made by the Company in three equal monthly instalments, the first starting from within a month of the publication of this award. So far about Chaturbhuj Singh.

(*b*) and (*c*) Sri Tarak Nath Das and Sri Chittaranjan Paul were discharged on the same date, i.e., on 15th December 1949 on the ground of alleged misconduct. They are said to have been involved in an obscene and ugly affair while on duty. They are also said to have been guilty of committing breaches of discipline and acts of rowdyism in the factory. Chittaranjan is said to have been responsible for the strike in 1948. He is also said to have assaulted the Darwan and also to have flung paint in the face of a co-worker. Tarak Nath Das started a case against the Manager under sections 323 and 504, I.P.C., after his discharge in the Presidency Magistrate's Court. The case was quashed on 4th April 1950. The Union on the other hand says that Sri Chittaranjan was a member of the executive of the Union and Sri Tarak Nath Das acted as the auditor of the Union and as such, they are being victimised by the Company just to wreck the Union. Here I again refer to the letter written by the Manager of the Company to Sri B. K. Roy, Labour Officer, on 27th December 1949 by way of explanation why these workers were discharged (*vide* Exhibit 10). This was shortly after the discharge. In that letter I do not see that the obscene and ugly affair now levelled against Sri Tarak Nath Das and Sri Chittaranjan Paul did find mention. So it is clearly an after-thought to mention this fact in subsequent letters and in the written statement of the Company. In Exhibit 10 these workers, namely, Sri Tarak Nath Das and Sri Chittaranjan Paul were accused of merely making scenes and rowdyism in the factory. So I discard the charge of committing obscene acts on the part of these workers. The next point to be decided is whether these workers were discharged, because of unsatisfactory conduct or because of their Trade Union activities. Of course, I find from the evidence that these two workers may have incurred displeasure and annoyance of the Company, because they took part in parleys on behalf of the Union before the Assistant Labour Commissioner. They were also attached to the Union, if not active members thereof. The Union contends that they should have been supplied with written charge-sheets and should have been granted opportunity to explain their conduct as laid down in the award of the Engineering Tribunal. There is some force in this contention. The said award was binding on the Company by virtue of the agreement contained in Exhibit 1. So written charge-sheet and an opportunity to explain their conduct should have been given to these workers before their discharge. They could have been suspended. They have not been given any written notice terminating their appointment. They are said to have been verbally discharged on 15th December 1949. On the evidence I find that though the Company was not absolutely justified in dismissing these employees in the summary manner, it cannot be said with certainty that these men were discharged because of their participation in Union activities. They had hardly an approved service to their credit. The two certificates which were given by the Manager subsequent to their discharge, though may go to the length of acquitting them of obscene and ugly talks, are more or less formal. They are not sufficient to displace the allegations made by the Company against the workers on the score of indiscipline, etc. So it is not a case of unfair labour practice and these two workers are not entitled to reinstatement. But they are certainly entitled to a notice of one month from 15th December 1949 or one month's wages in lieu of notice. As they were not given any notice, I award that Sri Tarak Nath Das and Sri Chittaranjan Paul would get wages for one month from 15th December 1949. This payment must be made in one instalment within one month of the publication of this award

IMPORT TRADE CONTROL.

New Delhi, the 10th July 1950.

SUBJECT:—*Issue of letters of authority by licensing authorities to regularise transfer of import licences between indenting and commission agents and dealers.*

No. 51-ITC(P.N.)/50.—Under the Import Trade Control Regulations, import licences issued by my authority are not transferable and they can be utilised for the importation of the goods covered by them only by the person or firm in whose favour they have been issued.

2. Clearance of goods against licences is permitted only with the bills of entry made out in the same name as that entered in the relative import licences. Similarly no person other than the licence holder himself is permitted by the Reserve Bank of India to open letters of credit to make remittances of foreign exchange against the exchange control copy of the import licence.

3. Requests are often received for authority to operate against licence from parties who are different from those in whose favour the licence was issued. Ordinarily such authorisations are not permissible. However, with a view to avoiding interference with the ordinary trade practice and inconvenience in genuine transactions and also with a view to exercising a proper check over the transfer of import licences, the following procedure will be followed in cases where it is desired that the goods should be imported by a person or firm other than the actual licence holder:—

(a) A written request in specific terms for issue of a letter of authority will be entertained from the holder of the licence only and from nobody else.

(b) The request for such a letter of authority should be accompanied by the following documents:—

(i) Where the transfer is to be made in favour of indenting houses documentary evidence to show that the indenting house has an agency agreement with the foreign suppliers and is authorised to accept contracts on behalf of his principals.

(ii) Relevant terms and conditions of the contract to show that the actual imports are to be made by the party to whom the letter of authority is to be given.

(iii) Sales transactions to show that the licence-holder will buy and the indenting house will sell the goods on arrival and that the sale transaction is irrevocable.

(c) The letter of authority will clearly show the name of the foreign supplier from whom the goods will be imported and will be valid only for imports from that supplier.

(d) The indentor acting on the authority letter will clearly indicate on the relative Customs documents, including the triplicate copy of the Customs Bill of Entry, that the goods have been imported by him on behalf of the licensee. This endorsement will be duly attested by the Customs authorities. The holders of the letter of authority will not under any circumstances be subsequently entitled to quota licences on the basis of these imports.

(e) Such requests should be made to either the authority who issued the licence or to Import Trade Controllers at the ports.

(f) Letters of authority will be issued in duplicate, *i.e.* one for Customs and the other for exchange control purposes. Whenever a letter of authority is issued it will entitle the person in whose favour it is issued to operate against the licence and to open letters of credit against the exchange control copy.

New Delhi, the 12th July 1950.

SUBJECT:—*Licensing of Homœopathic Medicines falling under Serial Nos. 87, 109 and 110 of Part IV for July-December 1950.*

No. 53-ITC(P.N.)/50.—Attention is invited to the entries against Serial Nos. 87, 109 and 110 of Import Trade Control Schedule in Appendix B to Public Notice No. 14-ITC(P.N.)/50, dated 15th June 1950, and to entry No. 9 in list (i) (c) and to the entry "Homœopathic Medicines" in list (iii) (d) contained in Appendix S to that Public Notice. These entries imply that "Homœopathic Medicines" will be licensed to established importers under the general quotas fixed for drugs medicines and pharmaceutical chemicals for the Dollar Area and Soft Currency Area for the periods July-December 1950 and January-June 1951, and on an *ad hoc* basis from Western Germany for July-December 1950.

2. It has now been decided in modification of the above arrangements that these goods will be licensed under separate quotas from the Areas concerned in the periods in question as follows:—

Area.	Percentage of Half Best Year's Imports for July-December 1950.	Percentage of Half Best Year's Imports for January-June 1951.
Dollar Area ..	200%	200%
Western Germany ..	200%	...
Soft Currency Area ..	200%	200%

In calculating these quotas past imports of Homœopathic Medicines only from the Dollar Area, Western Germany or the Soft Currency Area only as the case may be, will be taken into account.

3. As a consequence, licences issued under the general quotas for the Dollar and Soft Currency Areas will not be made valid for Homœopathic Medicines, but previous imports of Homœopathic Medicines will be taken into account in calculating the general quotas, as well as in calculating the special quotas referred to in the previous paragraph. Licences for drugs, medicines and pharmaceutical chemicals other than "Homœopathic Medicines" from Western Germany will continue to be granted to established importers on an *ad hoc* basis.

New Delhi, the 13th July 1950.

SUBJECT:—*Special quota for Powder Milk for Infant feeding under Serial No. 9 of Part IV for July-December 1950 from soft currency countries.*

No. 54-ITC(P.N.)/50.—It has been decided to issue licences under a special quota during the period July-December 1950 for import of "Powder Milk containing not less than 18 per cent. Cream intended for infant feeding" falling under Serial No. 9 of the Import Trade Control Schedule from soft currency countries.

2. The quota will be based on 33⅓ per cent. of half of best year's previous imports of goods falling under Serial No. 9 of Part IV alone and the licences issued under the quota will be valid for goods falling under that Serial number only.

3. This special quota will be in addition to the joint quota of 100 per cent. of half of best year's imports for Serial Nos. 9 and 74 of Part IV from soft currency countries already announced in Public Notice No. 14-ITC(PN)/50 dated the 15th June 1950.

4. Applications for licences under the special quota should be made in the form and the manner prescribed in Public Notice No. 14-ITC(P.N.)/50, dated the 15th June 1950 and should be addressed to the Import Trade Controllers, at the Ports through whom past imports have been made.

New Delhi, the 14th July 1950.

SUBJECT:—*Distribution of export quota for Butter and Cheese by Australian Dairy Produce Board. Necessity for placing early orders on Australian Suppliers.*

No. 55-ITC(P.N.)/50.—Information has been received that the Australian Dairy Produce Board has decided that the quota of butter and cheese set aside by them for countries other than the United Kingdom will be distributed by them on a "first come first served" basis. In addition a quota has been set aside for export to countries whose internal administration, either in the way of import licensing or other restrictive policy, precludes the prompt placement of orders by the importers in the countries concerned, but this quota has been considerably restricted.

2. The Import Trade Controllers at Bombay, Calcutta and Madras have been instructed to expedite the disposal of applications for import licences for these commodities for the July-December 1950 period.

3. This information is brought to the notice of the importers concerned in order to impress on them the urgency of submitting their applications for import licences immediately and of thereafter placing their orders for the import of Butter and Cheese on the Suppliers in Australia as expeditiously as possible.

DIRECTORATE OF AGRICULTURE
WEST BENGAL

Calcutta, the 13th July 1950.

Third and Final Forecast of Barley Crop of West Bengal for the year 1949-50.

[*Note.*—Estimates of acreage under Barley this year as shown in this forecast are based on the random sample survey conducted by the Indian Statistical Institute. As this survey does not include the whole of Darjeeling district, the acreages of this district have been estimated by the Directorate of Agriculture. The remarks on the causes of increase or decrease of the acreage in the respective districts as communicated by the agricultural staff do not agree with the figures of the two years compared here, as the figures are derived from two different sources. As such, no information has been given in that regard in this forecast.]

Season.—There has been drought in all the districts except Burdwan, Midnapore and Jalpaiguri.

Area and yield.—71,500 acres have been estimated to be under Barley this year compared to 56,700 acres reported in the final forecast of last year.

The estimated outturn of Barley per acre in the State works out to 6·89 maunds this year compared to 9·28 maunds last year. Calculated on this basis the gross yield of the State works out to 18,100 tons this year compared to 19,500 tons last year.

No. L.S.-G-2F-47/50.—28th July 1950.—In exercise of the powers conferred by section 4 of the West Bengal Fire Service Act, 1950 (West Bengal Act XVIII of 1950), the Governor is pleased to make the following order for regulating and controlling the powers, duties and functions of the Director, West Bengal Fire Service:—

Order.

1. The administration of the Fire Services throughout the areas where the Act is in force shall vest in the Director of Fire Services.

He shall generally advise Government on all matters relating to fire fighting, including the advice on licensing of manufacture or storage of commodities under the Act.

6. The Director shall, subject to such general directions as Government may give in this behalf, appoint the clerical and operational staff up to and including the rank of the Station Officers in the Fire Services and shall also take such disciplinary action against them as is considered necessary by him in accordance with the relevant rules on the subject.

7. The Director shall sanction payment of ordinary service pensions or gratuities to members of the Fire Services but not wound and other extraordinary pensions or gratuities.
